Summary

Dedicated and detail-oriented Front End Developer with 2.5 year of experience in implementing responsive, user-friendly web interfaces. Proficient in modern front end technologies such as HTML5, CSS3, JavaScript (ES6+), and frameworks/libraries including React.js, React-routing. Adept at collaborating with cross-functional teams to deliver high-quality projects within tight deadlines. Continuously staying updated with emerging technologies and best practices in front end development to drive innovation and enhance user experiences.

Education

University of Pune
Bachelor's Degree in Computer Science

CGPA : 7.8
2019 – 2022

Skills

Languages/ Technologies:

HTML5, CSS3, JavaScript, ES6+, ReactJS, RESTful APIs, Redux, DOM manipulation , core Java ,Webpack, React-Routing , Agile Methodologies

Database:

MySQL

Cloud Platform:

Microsoft Azure, Google Cloud Platform (GCP), AWS

Project Management Tools:

Github

Development Tools:

Visual Studio Code, Git , Dev Tools

Certifications

- JavaScript Algorithms and Data Structures by freeCodeCamp
- Front End Development Libraries by freeCodeCamp.
- Sorting algorithms by Coursera

Soft Skills

- Problem-solving
- Creativity
- Time Management
- Eye for Detail and self Motivated
- Application Design
- Security System
- Communication
- Skill eager to learn new Skills

Professional Experience

FrontEnd Developer

Logic Square Private Limited | September 2022 - Present

- Developed responsive and user-friendly web interfaces using **HTML**, **CSS**, and **JavaScript**, increasing engagement by 25%.
- Utilized **React.js** library to build dynamic and interactive components, ensuring a seamless user experience.
- implemented state management techniques such as **Redux** or **React Context API** to efficiently manage application state resulting in a 30% increase in performance
- Developed **reusable UI components** and integrated them into projects, reducing development time by 20%.
- Conducted code reviews and mentored junior developers, enhancing team productivity and code quality.
- Bundle **JavaScript**, **CSS**, and assets efficiently using **babel** for optimized loading.
- Manage project dependencies, install packages, and run scripts using **NPM**

Environment: **Redux**, **CSS**, **HTML** , **JavaScript** , **React.js**

React-Router , **Github**

- Optimizing front end code for faster loading times, improved rendering speed, and overall performance optimization through techniques such as code minification, image compression, React **lazy loading** , **UseMemo**, **Code Splitting** etc.
- Collaborated with UX/UI designers and back-end developers using **Agile practices**, ensuring iterative delivery of user-facing features
- Used Agile methodologies to deliver projects on time, improve team productivity, and respond quickly to changing client requirements Implemented best practices for user experience (UX) to maximize campaign success.
- Utilized **React Router** for efficient client-side navigation, optimized **SEO-friendly** React applications with built-in routing resulting in a smoother user experience.
- Familiarity with **RESTful APIs**, **DOM manipulation**, Client-Side Scripting, ensuring seamless user experiences.
