

SAI SURYA DIVILI

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer(MERN) with 2+ years of experience designing, developing, and deploying React.js and Node.js applications. Expertise in front-end development, API integration, and cloud deployment (cPanel & Hostinger). Strong problem-solving skills with a keen eye for detail. Adept at collaborating with cross-functional teams to deliver scalable and optimized solutions.

WORK HISTORY

Navakarana Technologies - Software Developer(MERN Stack)

05/2024 - Current

- Reviewed code, debugged problems, and corrected issues.
- Developed interactive and responsive UIs using **React Hooks** to manage component state, side effects, and global state efficiently.
- Developed an interactive dashboard with **CRUD** operations using **Fetch API** and Ant Design (**AntD**) **UI library**, enabling seamless data management and user-friendly interface
- Experience with state management libraries such as **Redux** or **Context API**.
- Developed user-friendly web forms with validation and error handling using **formik** with **React YUP**.
- Used **NodeJS** and **MongoDB** to develop and manage databases.
- Work with **version control systems** (Git) and follow a collaborative development workflow (e.g., GitHub, GitLab).
- Conceived and built optimized landing pages in HTML, CSS and JavaScript for Integration and cross-browser compatibility.
- Performed unit testing of web applications and troubleshoot issues.
- Developed user interfaces for deployment on hostinger platforms.

ReachALL Tech Labs - Software Developer(JavaScript)

01/2023 - 04/2024

- Produced websites compatible with multiple browsers.
- Coded using **HTML**, **CSS**, and **JavaScript** to develop features for both mobile and desktop platforms.
- Developed user-friendly web forms with validation and error handling.
- Conceived and built optimized landing pages in HTML and CSS for integration and cross-browser compatibility.
- Collaborated with in-house web designers to create sleek and innovative UI design.
- Optimized web applications for speed, scalability and security.
- Developed user interfaces for deployment on hostinger platforms.
- Conducted unit testing to deliver optimal browser functionality.

Selsyn Infra Projects Pvt. Ltd. - Design Engineer

03/2019 - 11/2022

- Develop detailed designs and layouts for networking, routing, communication, and electrical ensuring energy efficiency, functionality, and compliance with industry standards.
- Collaborate with architects, structural engineers, and contractors to integrate MEP systems into overall building designs while meeting project timelines.
- Prepare technical specifications, design calculations, and construction drawings, ensuring clarity and accuracy for installation teams.
- Conduct site inspections, monitor the installation process, and ensure that MEP systems adhere to approved designs, building codes, and safety standards.

Technical SKILLS

Frontend Development:

- HTML
- CSS, Tailwind CSS
- Javascript
- React.js

Backend & Database:

- Node Js
- Express Js
- MongoDB
- Realational Databases

Development & Operations:

- Git, GitHub
- Hostinger

Additional Tools:

- Postman
- Fire base
- Jira Ticketing Tool

EDUCATION

Jawaharlala Nehru Technological University

Bachelor of Science - Mechanical Engineering (2017)

CERTIFICATIONS

- MERN Stack Development - NxtWave
- JavaScript Specialist - NxtWave
- Front End Development - NxtWave
- Responsive Web Design - NxtWave
- Python, SQL, MongoDB - NxtWave
- Git & Git Hub - NxtWave
