TECHNOLOGY

- C#
- ASP.Net
- .Net CORE
- REST API
- MVC
- Microservices
- SQL
- JQuery, JavaScript
- Angular 9
- Vue.js beginner
- Azure (DevOps, IoT, PASS)
- Docker & Kubernetes
- Crystal report
- Power BI
- xUnit
- OAuth2.0
- SSO

DOMAIN

- Banking and Finance
- Manufacturing
- Home and Building Technology
- 3D Building Information Modeling
- Computer Aided Facility Management

DEV TOOLS

- Visual Studio
- Visual Studio Code
- SQL Mangement Studio
- Docker
- ReSharper
- Mailkit

PROFILE

Passionate programmer with 10+ years of experience in full-stack development, delivering innovative and scalable solutions in diverse domains. Skilled in designing, developing, and deploying high-quality software applications in dynamic, fast-paced environments. Experienced in collaborating within Agile teams to meet business objectives and drive success. Known for strong problem-solving abilities, effective communication, and a commitment to continuous improvement and learning.

WORK EXPERIENCE

Addnode India	09/2021 - PRESENT
Lead Software Developer	
L & T Infotech	08/2019 - 09/2021
Senior Software Engineer	
Fiserv	11/2014 - 08/2019
Software Engineer	

OVERALL RESPONSIBILITIES

- Leverage 10+ years of experience as a full-stack developer, specializing in Dot Net technologies.
- Successfully manage teams across two projects, showcasing leadership skills and effective team coordination.
- Lead the analysis of requirements and collaborate with internal teams to design and architect software solutions.
- Provide innovative, deliverable solutions aligned with project goals, ensuring seamless execution.
- Work closely with the quality assurance team to deliver reliable, high-quality web applications.
- Possess strong database expertise, including the development of queries, triggers, stored procedures, and functions.
- Adapt and thrive in Agile methodologies, managing dynamic project requirements and timelines.
- Contribute to both front-end and back-end development, driving end-to-end project success.
- Demonstrate international exposure through onsite assignments, contributing to diverse, cross-cultural teams.

EDUCATION

B.Tech In Information Technology 2011 - 2014

Walchand College of Engineering | Shivaji University

CGPA: 6.5

RECOGNITION

- Addnode India : Special Achievement Award
- L & T Infotech : Spot Awards
- Fiserv : Best Buddy Award & Best Fresher Award

ONSITE

- UK : Project Enhancement and Future strategy
- Sweden : UAT Support

COMMUNICATION

- Having exp. working with cross-cultural teams of developers across Europe
- Having Experience working with clients of US, Europe, Australia and Middle East

PROJECTS

QFM

- Developed key modules including Ticket Creation via Email, OAuth Authentication with KeyCloak, and Work Permit functionality from the ground up.
- Enhanced the Event Director and Scheduled Planner modules by implementing performance optimizations, achieving an 80% improvement in overall efficiency.

SMS (Service Management System)

- Developed the full T Offer module in the SMS project, contributing to its comprehensive functionality and integration.
- Led the UI design and completed end-to-end development, including unit testing, for the T offer module.
- Implemented critical features such as bill payment and invoice generation within the T offer module.

Biller Advantage

- Converted the ASP.NET Consumer model to ASP.NET MVC, significantly enhancing the application's architecture and scalability.
- Worked on performance optimization for various backend processes, resulting in improved efficiency and system responsiveness.
- Contributed to resolving multiple penetration testing issues, enhancing the overall security of the application.
