Experience

Tata Elxsi

Software Engineer

August 2022 – curr

Bangalore, Karnataka

- **Front-End Expertise:** Developed optimized and scalable interfaces using **Angular** and **React**, enhancing UI performance by **25%**.
- Hands-on experience in version control systems like **Git** and **Gerrit**, ensuring efficient collaboration and code management within teams.
- Worked in **MongoDB**, facilitating seamless integration of database functionalities into frontend applications.
- **API Handling:** Efficiently managed API responses in various scenarios, ensuring **100%** functional reliability across applications.
- Trained extensively in setting up and configuring **Jenkins pipeline** to automate the build, test, and deployment processes, ensuring consistent and reliable software delivery. Skilled in containerization technologies such as **Docker**, capable of deploying and managing application environments.
- **Code Optimization:** Consistently delivered clean, maintainable code, reducing technical debt by **25%** through best practices.
- **Task Ownership:** Maintained **100%** task completion without spillover, collaborating effectively with teams to meet project deadlines.

Technical Skills

Programming Languages: JS, Java.

Web Technologies/Frameworks: HTML5, CSS, JavaScript, Bootstrap, React.js, Angular.js.

Database Management: MongoDB

Developer Tools: HTML, CSS, JavaScript, JSP, Eclipse IDE, Junit, Jira.

Projects

infiniTE | Angular | April 2024 - Present

- Participated in onsite discussions to gather and understand system requirements.
- Analyzed the system requirements to clearly understand the project scope and objectives. Involved in designing the activities and workflows for the dealer page.
- Implemented components using Visual Studio to enhance the development process.
- Doing the Code reviews.
- Test the developer's test cases and perform unit testing.
- Coordinated the Onsite and offshore teams for Requirements, development, deployment, and delivery.
- Working with Agile methodology using Angular, Git tool

BAAS - Comprehensive Application Development | Angular, HTML, Bootstrap, JavaScript, MongoDB | October 2022 - July 2023

- Developed and launched a comprehensive application, incorporating front-end, back-end, and database components to enhance user experiences.
- Utilized HTML, Bootstrap, JavaScript, Express.js, Node.js, and MongoDB to optimize app performance, resulting in a 20% reduction in page load times.

Strengths

- Strong problem-solving skills and analytical thinking.
- Proficient in various programming languages and frameworks, especially Java.
- Excellent teamwork and collaboration abilities.
- Strong communication skills, both written and verbal.
- Ability to learn and adapt quickly to new technologies and environments.
- Skilled in writing optimized code.
- Willingness to stretch after office hours to ensure tasks are completed on time, never allowing task spillover.

Education

University College of Engineering Trichy

Bachelor of Technology in Electronics and Communication

2018 - 2022

Scored 7.9

Our lady of Lourdes girls higher secondary school | 2011-2018
