- ✓ I have completed my MCA in 2019, from RMD Sinhgad College of Computer Studies, under Savitribai Phule University of Pune.

Roles & Responsibility:

- ✓ Maintain and enhance the existing product by identifying and resolving technical issues, ensuring its stability and performance.
- ✓ Collaborate with cross-functional teams to gather requirements and translate them into technical solutions, focusing on product maintenance and improvements.
- ✓ Develop and implement new features and functionalities by harnessing the capabilities of Node.js and versatile PHP frameworks such as Laravel, Yii, and CodeIgniter. Employ frontend technologies including HTML, CSS, and Angular to create seamless user interfaces and engaging experiences. Adhere rigorously to coding standards and industry best practices throughout the development lifecycle, ensuring robustness, scalability, and maintainability of the applications.
- ✓ Conduct thorough testing of developed features to ensure they meet quality standards and are bug-free before deployment.
- ✓ Work closely with UX/UI designers to ensure seamless integration of frontend elements with backend functionalities.
- ✓ Collaborate with stakeholders to prioritize tasks, manage timelines, and deliver solutions within specified deadlines.
- ✓ Stay updated with emerging technologies and industry trends, suggesting and implementing improvements to enhance the product.
