address : Pune , Maharashtra , India

PROFILE SUMMARY

Dynamic and detail-oriented Frontend Developer with almost 2 years of hands-on experience in building responsive, user-friendly web applications. Proficient in HTML, CSS, and JavaScript, with a strong foundation in React.js for creating interactive UI components, seeking challenging opportunities to contribute my skills and expertise in a dynamic team environment.

SKILLS

- Frameworks : **React , Bootstrap**
 - Languages : **JavaScript , HTML , CSS**
 - Web Technologies : **REST API**
 - Package Managers : **npm , yarn**
 - State Management : **Redux**
 - Testing Frameworks : Jasmine , Jest
 - Operating Systems : Windows, Linux, macOS
 - Version Control : Git , GitHub
-

EXPERIENCE

Associate Software Engineer

BigPerl Solution , Bengaluru (December 2022 - Present)

- Engineered existing tools and services to build UI Systems.
- Contribution in Projects : Assisted in building various components for client-facing web applications. Worked on creating responsive layouts and improving the UI/UX of applications based on user feedback.
- Enhanced Visual Designs with CSS: Used CSS frameworks like Bootstrap to quickly prototype and style applications.
- Reduced load time to optimized images and minifying CSS/JavaScript.
- Utilized React hooks (useEffect, useState) to handle data fetching and update components in real-time based on API data.

- Implemented React custom Library components.
 - Created reusable React components (navigation, filters), reducing development time and maintaining consistency.
 - Developed project with latest React, Webpack, Babel and overall frontend Initialization process. Which helps to reduce size of bundling and improve frontend performance.
 - Worked on Webpack to minimize bundle size and improve performance of application.
 - Collaborated with cross-functional teams to brainstorm, research and define solutions.
 - Executed unit Testing on Jasmine.
-
