PROFESSIONAL EXPERIENCE

iDreamCareer, New Delhi, India
Software Engineer - Full Stack

May 2023 - Present

- Worked on synopsis V1 version and identified key issues & successfully architected & developed V2 version, which increased counselor's **engagement up to 30%**
- Independently **developed a SaaS platform** that enables third-party counselors to offer career counseling services (**Counseling as a Service**), helping students choose the right career path.
- Engineered an interactive **real-time messaging feature** using Socket.io, allowing immediate connection between students & counselors. The feature contributed to a **42% increase** in **successful appointment bookings** within the first month **post-launch**.
- Enable the Notification feature, resulting in a **40% increase in AMA engagement** & seamless conversation between students & counselors leading to a **23% faster reply rate** by counselors.
- I worked on an **ATS-friendly Resume Builder** that implemented three different styles. Students were able to get a **37% more response rate** after using our templates.
- Developed an Availability Dashboard that streamlined counselor scheduling, **increasing team size from 50 to 200** by automating the feature resulting in an **80% drop in manual data entry errors** & no more Excel maintenance.
- **Optimized MongoDB queries**, enhancing database performance & **reducing query execution time** resulting in a **40% reduction in MongoDB alerts**.
- Collaborated closely with product managers, and designers and **addressed loopholes** & QA Analysis to ensure timely delivery of projects.
