Summary

Full-Stack Developer experienced with Angular, React & Rust. Bringing a problem-solving mindset, turning complex problems into streamlined, effective outcomes. Strong background in **cloud technologies Azure, AWS** and compliance-driven development (HIPAA, GDPR).

Skills

Technical Skills

- **Front-End:** React, Angular, Flutter, Figma.
- **AI & NLP:** OpenAI, Deepgram, Azure AI Services, Heygen, Vapi, Digital Humans, Quickchat, LLMs.
- **Back-End:** Next JS, Node.js, Fast API, Firebase, Supabase, **Rust**.
- **Cloud Services:** Microsoft Azure (App Services, Functions, Blob Storage), AWS (S3, Lambda, EC2).
- **Databases:** MongoDB, MySQL, Postgresql, DynamoDB, Cosmos DB, Supabase.

Project Management & Agile Leadership

- **Agile & Scrum:** Sprint planning, daily standups, backlog grooming and retrospective meetings.
- **Project Planning:** Defining project roadmaps, managing risks and ensuring timely delivery.
- **Cross-Functional Collaboration:** Working with developers, designers, growth team and stakeholders.
- **Stakeholder Communication:** Requirement gathering, client meetings, and project updates.
- **Process Optimization:** Planning OKRs, Driving innovation and improving team efficiency.
- **Compliance & Security:** Expertise in HIPAA, GDPR, and secure data handling.

Work Experience

Development Lead – [Dezy It Growth Pvt. Ltd.](#) (formerly [Avian Design](#)) *(Remote)*

 August 2021 – November 2024

Roles And Responsibilities:

Frontend Development Responsibilities

- Develop, optimize, and maintain **responsive** and **scalable** web applications.
- Implement **dynamic UI components** using **Angular, React, HTML5, CSS3, and SCSS**.
- Write reusable, maintainable, and efficient modular components and services.
- Optimize web applications for maximum performance and scalability.

API & Backend Integration

- Consume and integrate RESTful APIs securely using HTTPClient and RxJS.
- Handle state management using NgRx.
- Implement authentication and authorization using JWT, OAuth, or SSO.

Cloud & DevOps (Deployment & Maintenance)

- Deploy applications on **Vercel, AWS, or Azure**.
- Work with **Docker** for containerized deployments and process management.
- Set up **CI/CD pipelines** using **GitHub Actions**.
- Implement **logging and error monitoring** using tools like **Sentry**.

Collaboration & Agile Development

- Work closely with **backend developers, UI/UX designers, and QA teams** to deliver robust solutions.
- Participate in **code reviews, daily stand-ups, sprint planning, demonstrations and retrospectives** following Agile/Scrum methodologies.
- Maintain proper **documentation** of APIs, architecture, and deployment processes using **Swagger, Notion**.

Projects

1. [Happi.ai](#) (A virtual mental health coach)
- Delivered the **Payment Gateway APIs** for seamless transactions.
 - Integrated real-time voice recognition with Deepgram and AI responses with Azure Mistral LLM, improving data efficiency and user engagement.
 - Facilitated requirement-gathering sessions with stakeholders to define application goals and user needs, along with conducting **scrum ceremonies**.
2. [Dezy it Voice Assistant](#) (Healthcare Application)
- Integrated **Google and Microsoft Calendar APIs** for efficient scheduling.
 - Developed a chat-based application for doctors and patients, integrating **Azure Cosmos DB** for secure data storage.
 - Developed a patient triaging module to prioritize appointments based on treatment type and medical condition.
 - Engineered AI-driven phone conversation systems with robust architecture.
 - Led All Scrum Ceremonies.
- 3 [PNC Infratech](#) (Corporate Website)
- Built and delivered the official website for PNC Infratech, a leading Indian infrastructure company.
 - Delivered a corporate website with real-time financial data analytics and insights.
-

Software Developer – [SpiceTech](#)

July 17

December 2020 – April 2021

- Worked with Angular applications.
- Developed CRUD APIs for data management and integrated analytics tools for actionable insights.
- Developed Spicetech Branding & Ahuja Construction Websites.
- Designed & Implemented Various UI Ux For Multiple Applications.

Trainings

-  [TeachMeHIPAA](#): Demonstrates expertise in HIPAA compliance and secure healthcare data handling.
-  [GrowthX](#) (GX19): Specialized in product strategy and growth. Applied growth frameworks to optimize product-market fit, customer acquisition, and retention strategies.

Achievements

-  Managed end-to-end product development, leveraging data analytics for client insights, process optimization, and maintenance improvements.
-  Developed **Proof of Concept (PoC) for Stanford Health Care**.

Education

-  **Bachelor in Computer Engineering** – Mumbai University, 2021
-  **Diploma in Computer Engineering** – Mumbai University, 2016
