Summary

As a highly skilled frontend web developer with 5 years of expertise, my focus lies in React, Next JS, JavaScript, HTML, CSS, and Sass. I have successfully delivered responsive and user-friendly web applications, showcasing a proven track record in creating intuitive user interfaces. Possessing strong problem-solving abilities, I am passionate about crafting seamless digital experiences.

Skills

React • JavaScript • Next.js • HTML/CSS • CSS Preprocessors • Jest • Tailwind css • TypeScript

Work Experience

Frontend Engineer

Jan 2020 – present

PrepLadder by Unacademy • Full-time

Chandigarh, India

Technologies: React • JavaScript • Next.js • HTML/CSS • CSS Preprocessors

- Spearheaded the development of PrepLadder's Test Module, leveraging cutting-edge React components, stateful hooks, and meticulously crafted UI/UX designs to faithfully replicate the intricate test layout and conditions of the NEET-PG exam, ensuring an immersive and authentic user experience.
- Employed advanced methodologies in enhancing PrepLadder's Admin Application, orchestrating the implementation of robust internal systems such as bespoke WYSIWYG editors, multipart video upload functionalities, and fine-grained role-based access controls, optimizing administrative workflows and operational efficiency.
- Executed a comprehensive optimization initiative for PrepLadder's QBank, executing a strategic migration to the lightweight Preact framework, meticulously pruning dependencies, and architecting custom, reusable components and hooks. This transformation yielded a remarkable performance surge of approximately 65% alongside a significant size reduction of about 35%, significantly enhancing load-time efficiencies and user satisfaction.
- Architected the development of PrepLadder's Teacher Partner App, integrating sophisticated backend analytics and reporting functionalities with an intuitive frontend interface, empowering educators with seamless note/video uploads, comprehensive revenue insights, and actionable student feedback mechanisms.
- Played a pivotal role in the frontend engineering efforts for the OnePrep Web App, implementing advanced authentication protocols, seamless payment gateway integrations, and sophisticated custom calendar functionalities, ensuring a seamless user journey and optimal engagement metrics.
- Engineered the dynamic Neuros Quiz Module, leveraging real-time data synchronization techniques and interactive gamification elements to create an engaging quiz experience tailored for Neuros' in-person class attendees, fostering active participation and knowledge retention.
- Architected the creation of the Chatbot Module, harnessing Salesforce's robust platform capabilities and integrating AI-driven conversational interfaces to deliver personalized support-centric insights, enhancing user engagement and satisfaction.
- Engineered a bespoke IndexedDB implementation, leveraging low-level browser storage capabilities to design a highly efficient data management solution tailored for PrepLadder's diverse web applications, optimizing performance and scalability.
- Demonstrated a steadfast commitment to software quality assurance through rigorous iterative development cycles and comprehensive unit testing methodologies using Jest, ensuring the resilience and reliability of deliverables in alignment with industry best practices.
- Cultivated synergistic collaboration with cross-functional teams, fostering open communication channels and leveraging agile project management methodologies to drive the successful delivery of impactful features and solutions.

Education

Bachelor's degree: Electronics and Communication Engineering

Aug 2013 – Aug 2017 • 4 yrs

Himachal Pradesh Technical University

Hamirpur, HIMACHAL PRADESH, India

- **2013-08 - 2017-06 B.Tech:** Electronics And Communications Engineering Himachal Pradesh Technical University - Hamirpur

Certifications & Awards

PrepStar Award (Employee of the Quarter) - PrepLadder by Unacademy	Jul 2022
React Front to Back: Brad Traversy - Udemy	Mar 2021
The Complete Web Developer: Zero to Mastery - Udemy	Dec 2019
