

ADARSH SINGH

Software Engineer | Frontend Developer

Gmail: adarshsingh6861@gmail.com Mob: +91 9060806861 LinkedIn: [Adarsh](#)

PROFESSIONAL SUMMARY

Software Engineer with **3 years of experience** in building **high-performance, scalable**, and maintainable web applications. **Proficient** in **React.js, JavaScript (ES6+), Redux, Bootstrap, HTML, CSS**, and modern front-end development practices. Skilled in developing **reusable components**, **optimizing** application performance, and integrating **RESTful APIs** to deliver **seamless user experiences**.

WORK EXPERIENCE

React JS Developer – Claritech Solution LLP

[July 20–Present]

- Developed and maintained **high-performance** React applications with **reusable, scalable** components.
- Optimized application performance, **reducing bundle** size by 40% through tree shaking and **lazy loading**.
- **Migrated** a React project from Class Components to Functional Components with Hooks, improving **code maintainability and scalability**.
- Enhanced test coverage by 60% by leading unit and **integration testing initiatives**.
- Built a multi-language, **internationalized** application using i18next, improving global accessibility.
- Designed and **implemented** a real-time chat system using React, WebSockets, and Node.js for instant communication.
- Boosted page speed by 50% by **implementing** server-side rendering (SSR) and **lazy loading strategies**.

EDUCATION

University Institute of Technology Burdwan, WB

[2018 – 2022]

Bachelor of Engineering (Information Technology)

PROJECTS

Real Estate Property Listing | *React Js, Bootstrap, HTML, CSS, Git*

- Developed property listing, detail pages, and a contact form. Wrote clean, maintainable code following the latest React/JavaScript standards.
- Integrated real-time property data from APIs in collaboration with back-end developers.
- Implemented search and filtering functionalities based on price, location, and property type

Employee Directory Application | *React.js, Bootstrap, HTML, CSS, Git*

- Built a scalable Employee Directory Application with React.
- Engaged in Agile practices, including daily stand-ups and code reviews.
- Debugged and resolved front-end issues, ensuring application stability.
- Implemented seamless navigation with React Router for user-friendly browsing.

TECHNICAL SKILL

- **Languages:** JavaScript, HTML, CSS

- **Libraries:** React Js, Redux, JQuery
- **Framework:** Bootstrap, Material-UI
- **Developer Tools:** Git, GitHub, VS-Code, Jira, Bitbucket

INTERNSHIP

Newton School Coding BootCamp

- Completed a **Full Stack Web Development** program, mastering technologies like **HTML, CSS, JavaScript, Java, React, and Bootstrap**, while actively participating in coding contests to demonstrate **problem-solving skills** and **technical expertise**.

Claritech Solutions LLP

- Collaborated with senior developers to write efficient, reusable, and modular code, resolving front-end bugs and UI inconsistencies to improve application stability and user experience.
