## Frontend Developer

Chennai, Tamilnadu | [ajmeerkhan1603@gmail.com](mailto:ajmeerkhan1603@gmail.com) | +91 9150464139

LinkedIn - <https://www.linkedin.com/in/ajmeerkhanr>

## CAREER OBJECTIVE

---

Front-End Developer with over 4 years of industry experience, I bring a proven track record of designing and implementing visually stunning and highly functional user interfaces. Proficient in HTML, CSS, and JavaScript. My expertise extends to working with popular front-end framework React, enabling me to create scalable and maintainable code. I am passionate about optimizing user experiences and ensuring seamless interactions through a deep understanding of user interface design principles. Proven expertise in utilizing front-end framework React to develop scalable and efficient code.

## PROFESSIONAL EXPERIENCE

---

**Designation - Software Engineer**

July 2024 – Dec 2024

**Company - Sight Spectrum (Contract Basis) | Chennai, India**

**Client - Cavin Infotech Pvt Ltd**

**Project - Ascendio**

**Project Duration: 6 Months Project**

**Description:**

- Ascendio is a goal-tracking application designed to help users effectively manage, track, and achieve their goals.
- The platform allows users to set specific goals, monitor their progress, and analyze outcomes using intuitive dashboards and analytics.
- The project aimed to enhance user engagement by providing personalized recommendations and progress tracking features.

**Responsibilities:**

- Collaborated with the development team to ensure quality deliverables.
- Conducted thorough testing of goal-tracking features and user workflows.
- Reported and tracked defects to ensure timely resolution.
- Ensured adherence to client requirements and maintained quality standards.
- Provided detailed feedback to the team for continuous improvement.

**Project - Management In Action**

**Project Duration: 6 Months Project**

**Description:**

- Data-Driven Platform: "Management in Action" leverages modern technologies to analyze store performance and sales metrics, providing actionable insights to enhance business efficiency.

- **Key Metrics Tracking:** Built with JavaScript, Sass, and Redux Toolkit, the platform efficiently tracks critical indicators like same-store offtake and total line items sold, offering a seamless and responsive user experience.

**Tech-Enabled Decisions:** With its robust technology stack, it empowers stakeholders with accurate and timely data, enabling informed decision-making to optimize store performance and drive growth.

### **Responsibilities:**

- Developed responsive UI components using Reactjs and scss.
- Managed state with Redux for seamless data flow.
- Built reusable components like OutletTable for scalability.
- Enhanced UI for improved user experience and interaction.
- Integrated APIs for real-time data fetching and updates.
- Optimized code for readability and maintainability.
- Ensured responsive design across device.
- Worked closely with backend teams to integrated APIs and ensure data accuracy in frontend displays.

**Designation - Associate Software Engineer**

Apr 2023 - Jun 2024

**Company - iTMDEV Technologies | Chennai, India**

**Project Name: MyTheron**

**Purpose: Internal Job Portal Application**

### **Overview:**

MyTheron is a web-based job portal designed for internal use within the organization. It streamlines the recruitment process by offering features for creating job posts, applying for jobs, and sharing job links across platforms. The application supports role-based access to ensure secure and efficient usage.

### **Key Features:**

#### **1. Job Post Creation:**

- Allows authorized users to create detailed job postings.
- Includes fields for job title, description, requirements, and application deadlines.

#### **2. Job Application:**

- Enables employees or internal candidates to apply for jobs.
- Provides application tracking and status updates.

#### **3. Job Link Sharing:**

- Facilitates sharing job links through internal communication channels or external platforms.
- Ensures tracking of referrals or shared applications.

#### **4. Role-Based Access:**

- Offers distinct access levels for administrators, recruiters, and applicants.
- Ensures data confidentiality and controlled access to functionalities.

**Benefits:**

- Simplifies and centralizes the recruitment process.
- Enhances collaboration between teams and departments.
- Provides a transparent system for managing internal job opportunities.

**Project: Venba- AI Chat Assistance Web App****Description:**

- Developed an AI-driven chat assistance platform that uses artificial intelligence to provide real-time, automated responses and support to users.
- The app featured a chat interface for user interactions and functionalities for managing categories and file uploads through data management operations.

**Responsibilities:**

- Designed and implemented scalable, responsive user interfaces for seamless interactions.
- Integrated Rest APIs to enable real-time data fetching and efficient data handling.
- Debugged and resolved critical issues to ensure platform stability and functionality.
- Optimized application performance and collaborated with cross-functional teams for end-to-end delivery.

**Project: Trove****Description:**

- The Trove Project Chat application, powered by **TypeScript**, offers a robust and scalable chat platform with functionality similar to WhatsApp.
- It comprises four key modules: **KM (Knowledge Management)** for uploading posts live, similar to Instagram, and evaluating address grams; **Survey**, utilizing Yup validation; **DM (One-to-One Chat)**; and **Circle (Group Chat)**, designed to cater to diverse communication needs.
- The application leverages **Zustand** for efficient state management, ensuring seamless interactions across all modules.
- Real-time communication is achieved through **WebSockets**, enabling instant message delivery and updates.

**Responsibilities:**

- Develop and maintain scalable and efficient chat modules using **TypeScript** and **Tailwind CSS** to create a responsive and user-friendly interface.
- Implement **Zustand** for state management to ensure real-time synchronization of chat data and user actions.
- Configure **WebSockets** for seamless live communication across KM, Survey, DM, and Circle modules.
- Validate and manage roles and permissions in the KM module to enforce secure and role-based access to features.

**Technologies Used:**

- **TypeScript**: For building a type-safe and scalable application architecture.
- **Tailwind CSS**: For crafting responsive, modern, and aesthetically appealing user interfaces.
- **Zustand**: For managing application state with simplicity and efficiency.
- **WebSocket**: For enabling real-time communication and data transfer.

## Project - FLP360

### Domain: Banking

- End-to-End business solution for the Banking domain.
- It is having the modules like account creation, customer information, Transaction, Loan Management, Accounting and Finance, Security, Risk Management, Online Banking, Customer Relationship management.
- It's having multiple logins like customers, admins, Managers and the access and the role will be changed for everyone.

## ROLES AND RESPONSIBILITIES

---

- Developed the Web application using HTML, CSS, JavaScript, React JS.
- Create visually appealing and responsive user interfaces for websites and web applications.
- Implement web designs provided by designers using HTML, CSS, JavaScript and React Js.
- Hands on experience in React Js.
- Develop responsive web pages that work well on various devices and screen sizes.
- Optimize web pages for speed and performance.
- Implement techniques such as lazy loading, code splitting, and image optimization to enhance website performance.
- Ensure that web applications work consistently across different web browsers.
- Collaborate with back-end developers and other team members to integrate front-end and backend components.
- Communicate effectively with designers, product managers, and other stakeholders to understand project requirements.
- Debug and troubleshoot issues to ensure a smooth user experience.
- developed the banking sector web Application for client
- modifying existing features and developing new functionalities.
- Proficient in SQL queries for efficient data retrieval
- Document code and development processes for future reference and team collaboration.
- Provide clear documentation for APIs, libraries, and other components.
- Work with senior for KT Sessions.
- Worked on Bug Fixes based on the ticket raised in JIRA.
- Applied Agile methodologies and participated in Sprint ceremonies.
- Use version control systems (e.g., Git) to manage and track changes in the codebase
- Find creative and efficient solutions to technical issues.

**Designation - Software Engineer Trainee**

Dec 2020 - Mar 2023

**Company - iTMDEV Technologies | Chennai, India**

- Got trained for 3 months based on Front end technology like **Html, Css, Bootstrap and React.**
- I have collaborated with senior engineer on various of projects to deliver client requirements.

- I'm passionate about creating great user experiences and have a strong understanding of usability and accessibility standards.
- Utilize programming languages like React JS, Java Script, HTML and CSS to built interactive and dynamic user interfaces.

**Designation - Logistics Supervisor**

Jan 2019 – Mar 2020

**Company - M.O.C DIES AND MOULDS | Chennai, India**

- Proficient in planning, shipping, and managing warehouse operations, including inventory systems.
- Skilled in organizing and managing daily shipment routes and delivery schedules.
- Experienced in tracking shipment progress to ensure timely and accurate deliveries.
- Adept at reviewing inventory requirements and maintaining adequate stock levels.

## TECHNICAL SKILLS

---

- **Frameworks/Libraries:** React JS, Bootstrap
- **Scripting Languages:** JavaScript (ES6+)
- **Markup Languages:** HTML5, CSS3
- **State Management:** Redux
- **CSS Preprocessors:** SASS
- **Responsive Design Frameworks:** Material-UI, Tailwind CSS
- **Version Control:** Git, GitHub, GitLab
- **API Integration:** RESTful APIs
- **Cross-Browser Compatibility:** Chrome, Firefox, Safari, Edge

## EDUCATION

---

**B.E, Mechanical Engineering** | Mookambigai College of Engineering (2014 - 2018)

## LANGUAGE PROFICIENCY

---
