

## PROFESSIONAL SUMMARY

Web Developer with 1.5+ years of experience in React.js, Python, FastAPI, and SQL, specializing in web application development and database management. Recently resumed career after a planned break, actively upskilling in Data Structures, Algorithms, and Advanced SQL, solving 100+ coding challenges. Strong analytical and problem-solving skills, eager to contribute to web development, backend engineering, or database optimization roles.

## PROFESSIONAL EXPERIENCE

### Senior Analyst

**Ernst & Young** | Apr 2022 – Dec 2022

- Designed and developed an ETL tool, streamlining data workflows and reducing manual processing time by 15%.
- Built a user-friendly front-end for internal data visualization tools using React.js, improving workflow efficiency by 10%.
- Created web services and APIs using React.js and FastAPI, achieving a 10% reduction in response times.
- Optimized MySQL databases with advanced SQL queries and indexing techniques, enhancing performance by 12%.
- Led code reviews and enforced best practices, decreasing bugs by 20% and improving code maintainability by 15%.
- Managed deployment documentation for web and desktop applications, boosting operational efficiency by 20%.

### Junior Web Developer

**Sheell Desae & Partners** | May 2021 – Apr 2022

- Developed and maintained websites for a law firm and TOEToes using React.js, Node.js, HTML5, CSS/SCSS, and MongoDB.
- Improved user satisfaction by 15% through a redesigned front-end interface.
- Enhanced API efficiency by optimizing the Node.js MVC architecture, reducing data transfer times by 10%.
- Implemented a recursive file deletion solution in Node.js, doubling processing speed.
- Supervised front-end and back-end updates, resulting in a 25% reduction in system downtime.

## PROJECTS

### Blog Website | [Project Link](#)

**Tech Stack:** React.js, Python, FastAPI

- Built a full-stack blog website using React for the frontend and FastAPI for the backend.
- Implemented the MVC architecture in Python for structured and scalable development.
- Developed role-based authentication in both frontend and backend, ensuring secure user access.
- Integrated JWT authentication for secure login sessions and API protection.
- Designed a responsive UI using React-Bootstrap, enhancing user experience.

## SKILLS

- Technical Skills: React.js, Python, FastAPI, MySQL, Node.js
- Data & Algorithms: Data Structures & Algorithms, Pandas, MySQL
- Web Development: HTML5, CSS/SCSS, Bootstrap
- Tools & Technologies: Git, VS Code, Microsoft Excel

## EDUCATION

### Master of Computer Applications (MCA)

Vivekananda Education Society's Institute of Technology, Mumbai

*Aug 2018 – Nov 2021* | CGPA: 7.34

### Bachelor of Computer Applications (BCA)

Bharati Vidyapeeth's Institute of Management Studies & Research, Navi Mumbai

*Aug 2015 – Jul 2018* | CGPA: 7.8

## CODING PLATFORMS

- **LeetCode:** Solved 90+ algorithm challenges [ [LeetCode Profile](#) ]
- **HackerRank:** Certified in Python and SQL [ [HackerRank Profile](#) ]
- **StrataScratch:** Advanced SQL problem-solving [ [StrataScratch Profile](#) ]
- **Data Lemur:** SQL and data manipulation practice [ [Data Lemur Profile](#) ]

## ADDITIONAL INFORMATION

- Active contributor to coding communities on Instagram, sharing tutorials, coding tips, and real-world problem-solving insights. [ [Instagram Handle](#) ]
