Professional Experience

Front End Developer,ElectrifAi

08/2024 – present

- Currently working on two frontend projects: one utilizing React and the other built with Next.js.
- Fixing bugs and enhancing existing features in the FarmAi main project, improving overall performance and user experience.
- Building an admin tool to manage FarmAi data, streamlining the onboarding process for new farms and simplifying data management.

Thoughtspot, Front End Developer

07/2023 – 07/2024

Data Analytics software (Company's Product)

- Managed the npm library for integrating software into client applications, ensuring efficient deployment and reducing bug count by 20% through Bearer Authentication.
- Diagnosed and resolved customer-reported bugs promptly, documented resolutions and root cause analyses.
- Developed and executed test cases using Playwright with TypeScript to validate fixes and ensure software stability.
- Provided on-call support, effectively handling customer queries to maintain satisfaction and confidence in the product.

Infosys Limited, Front End Developer

07/2022 – 07/2023

Shell Project (Client Name : Shell)

- Implemented and managed input and output page for Shell's algorithm results.
- Focused on the front end of a web application built with ReactJS. Introduced Redux from scratch to improve the app's state management.
- Utilized React Profiler for extensive optimizations in this data science project, implementing memoization for components as needed, boosting overall performance by 50%.
- Authored component test scripts using JEST and React Testing Library.
- Refactored numerous pages, breaking them down into reusable components to enhance developer experience and increase code maintainability.
- Used Big data query for analyzing the data.

Spot Bus, USA, Front End Developer

05/2021 – 07/2022

School Bus Tracking (Company's Product)

- Managed the dashboard of a web application and integrated the Leaflet map.
- Customized the Google Maps and Leaflet map pages to display custom markers.
- Developed custom polylines to depict routes and paths, tailoring their appearance to meet the project's design specifications.
- Implemented the timeline feature on the dashboard page.
- Collaborated with the backend team to integrate authentication flow using AWS Amplify in the mobile application, alongside additional functionalities.
- Developed unit and end-to-end tests using Jest, React Testing Library, and Puppeteer.

Skills

Languages: Java,JavaScript,Typescript,HTML5,Css3,Sass

FrontEnd Tools: ReactJS,Next Js,ReactNative,Redux ,React Router,Bootstrap,Material UI

Backend Tools: NodeJs,ExpressJs,MongoDB,RestApi,GraphQL Api

Testing & Others-: ReactTesting, Git,GitHub,Jest,Puppetter,Playwright,Npm,Babel,Webpack

Education

A.K.T.U. Lucknow, India -- B.tech (Computer Science)

07/2016 – 10/2020
