Academic Details

- Bachelor of Engineering (B.E.)
Mechanical Engineering**
SSBT COET, Jalgaon
CGPA: 7.37
(PASSOUT-2020)

Soft Skills

Analytical | Collaborator | Leader | Adaptable

Technical Skills

- Programming Languages:**
JavaScript, HTML, CSS
- Frameworks:**
React, Express, Django

Core Competencies

- Agile Methodologies
- Software Development Life Cycle
- Restful API
- Debugging
- Containerization
- Web Services
- Microservice Design
- Performance Optimization
- System Scalability

Personal Details

Date of Birth: 8th FEB 1998
Languages Known: English, Hindi and Marathi
Address: Pune, Maharashtra

Profile Summary

- A detail-oriented professional with **experience of nearly 2.5 years** in back-end Software Development in the IT industry.
- Experienced as a Software Developer Engineer at P-Webcraft Technology Pvt. Ltd, showcasing proficiency in **MERN Stack Developer** leading to successful project outcomes.
- Proficient in **MongoDB, Express.js, React, and Node.js**, with a strong focus on building scalable, efficient, and user-friendly applications.
- Experienced in working with RESTful APIs, implementing responsive front-end designs, and managing databases for optimized performance
- Adept at collaborating in Agile environments, problem-solving, and continuously learning new technologies to improve project outcomes. Strong foundation in **JavaScript, HTML/CSS**, and version control systems like **Git**.

Work Experience

Software Developer Engineer P-Webcraft Technology LLP, PUNE	June 2022 – Present Working
--	------------------------------------

Responsibilities:

- Designed, developed, and maintained full-stack web applications using the **MERN stack** (MongoDB, Express.js, React, Node.js).
- Developed and consumed **RESTful APIs** to facilitate seamless communication between the front-end and back-end, ensuring efficient data exchange.
- Managed and optimized **MongoDB databases**, including schema design, indexing, and aggregation for faster query performance.
- Followed **Agile** development practices, participating in daily stand-ups, sprint planning, and code reviews to ensure timely and quality deliverables.
- Used **Git** and **GitHub** for version control, enabling team collaboration and tracking project progress.
- Debugged and resolved issues with application performance, improving load times and user experience by optimizing **Node.js** and **MongoDB** queries.
- Maintained comprehensive project documentation for future reference and ensured adherence to best coding practices.

Achievements:

- Streamlined edge server monitoring processes, resulting in an improvement in system uptime and performance.
- Recognized as the best performer in the team for 2023Q4, showcasing dedication and excellence in software development.
- I have successfully completed the Diploma in Advance programming at Mzos in 2021.

Academic Projects

PROJECT NAME: Personal Portfolio

Tools: HTML, CSS, JavaScript, React.JS

Roles: Hardware Program, Full-Stack web application, Deployment

PROJECT-DESCRIPTION: Developed and maintained a personal software development portfolio showcasing expertise in web development, data structures, and algorithms

PROJECT NAME: Task-Manager-App

Tools: Node.JS, Express.JS, MongoDB, Tailwind CSS

Roles: Full-Stack web application, Deployment, Error Handling

PROJECT-DESCRIPTION: Developed a task management web application that allows users to create, view, and manage tasks. The app leverages a Node.js backend with Express for server-side routing, EJS for dynamic content rendering, and a simple file system for data storage in .txt files. The project features a responsive UI built with Tailwind CSS
