EXPERIENCE

Software Developer

Green Apples TechSystems

📅 May 2023 – Present

- Played a key role as part of the front-end development team, responsible for implementing new features and troubleshooting bug fixes on the web portal, enhancing system functionality and user experience.
- Contributed to the migration of the codebase from **PHP** and **vanilla-JavaScript** to **ReactJS** and **JavaScript (ES6+)** as part of a team, resulting in a **50% reduction in page load times** and improving overall application performance.
- Contributed to the development and implementation of a **communication feature** for sending messages via **email** and **SMS** using **ReactJS** and integrated messaging APIs to enhance user experience.
- Actively identified, troubleshooted, and resolved production bugs, applying hotfixes to maintain system stability and minimize downtime.
- Utilized **React.JS** to make both **synchronous** and **asynchronous API calls** to fetch and display data dynamically, significantly improving **user experience** and **interface interactivity**.
- Collaborated with cross-functional teams to ensure efficient development workflows and code quality, adhering to **Agile** methodologies.

PROJECTS

Blog Webapp 🔗

<https://github.com/atyab-mohd/blogproject>

- A fully functional web application that allows registered users to read, create, update, and delete blog posts.
- Implemented a user-friendly interface where users can navigate through blogs and manage their own posts effectively.
- Frontend: **React.js**, **react-router-dom**, **react-redux**, **tinymce-react**, **Tailwind CSS**.
- Backend: **Appwrite** leveraged as the backend service for **user authentication**, **data storage**, and **API management**.

Search Engine 🔗

<https://github.com/atyab-mohd/Search-Engine>

- A simple search engine allows the user to enter a keyword, and according to the keyword, search results are provided. Users can also check the history of keywords searched.
- **Frontend** built using **HTML**, **CSS**, **JSP** and **Backend** built using **Java Servlets**. **MySQL** is used as a database for storing pages and history data.

SKILLS

React JavaScript HTML CSS
RESTful APIs Java Data Structures
Algorithms MySQL Spring Boot

CODING PROFILES

- [Leetcode](#)
- [Geek For Geeks](#)

EDUCATION

Bachelor of Technology in Computer Science

Jamia Hmdard, New Delhi

📅 2018 – 2022

CGPA:7

Class XII

Dev Samaj Modern School No.2, New Delhi

📅 2018

CGPA:7.4

Class X

Dev Samaj Modern School No.2, New Delhi

📅 2016

CGPA:7

TRAINING/COURSES

Full Stack Web Developer

AccioJob

📅 September 2022 – May 2023

COURSEWORK

- Data Structures and Algorithms
- Object- Oriented Programming
- MySQL

ACHIEVEMENTS

- Solved 400+ problems on different coding platforms and on AccioJob Gym.

INTERESTS

- Technology and Space
- Sports: Mostly Basketball and Badminton.
- Solving puzzles
- Building Logic
