PROFILE

Results-driven **Full Stack Developer** with **3 years of experience** in designing, developing, and deploying scalable web applications at a product-based company. Proficient in **Java, Angular, Spring Boot, TypeScript, JavaScript, HTML, CSS, Microservices, and REST API**. Adept at delivering high-quality solutions in agile environments, with a strong focus on clean code, performance optimization, and user-centric design. Passionate about learning new technologies and contributing to innovative projects.

PROFESSIONAL EXPERIENCE

Full Stack Developer

Gurukul Solutions pvt ltd

09/2021 – 06/2024

Pune, India

- Designed, developed, and maintained full-stack web applications using Java and Angular, ensuring high performance and scalability.
- Collaborated with cross-functional teams to gather requirements, define project scope, and deliver solutions meeting business objectives.
- Utilized Angular for front-end development, creating responsive interfaces with HTML5, CSS3, TypeScript, and leveraging Angular CLI for build automation.
- Conducted code reviews, performed unit testing, and ensured adherence to best practices and coding standards.
- Employed Git for version control, maintaining organized repositories with clear commit messages and branching strategies.

Scrum Master

Gurukul Solutions pvt ltd

09/2023 – 12/2023

Pune, India

- Facilitated Agile ceremonies, including daily stand-ups, sprint planning, reviews, and retrospectives, ensuring adherence to Scrum principles.
- Guided and coached the development team on Agile methodologies, emphasizing selforganization and continuous improvement.
- Acted as a servant leader, removing impediments and shielding the team from distractions for efficient workflow.
- Collaborated with the Product Owner to maintain a refined backlog, prioritize tasks, and align with business objectives.
- Fostered a culture of transparency, open communication, and trust within the team, promoting ownership and accountability.
