PROFESSIONAL EXPERIENCE

UNICORN READY TECHNOLOGIES.RETAILS

Frontend Developer (React Js)

Bangalore, Karnataka, India

March-5/2022-March-20/2025

Responsibilities:

- Develop user interface components and implement frontend solutions using React.js and related libraries/frameworks such as Redux, Bootstrap.
- Collaborate with design teams to translate UI/UX designs into interactive and engaging web applications.
- Work closely with backend developers to integrate frontend components with backend services via RESTful APIs.

Achievements:

- Completed 8+ projects showcasing proficiency in frontend development.
- Led the migration of a legacy frontend codebase to modern frameworks such as React js and Typescript
- streamlining development processes and improving maintainability.

Projects:

- **Magex — AI-driven platform, Redefining Magento store creation.**
 - Technologies Used: React js, Typescript, Redux, HTML, CSS, Bootstrap, MediaQuery, Json web token, Google recaptcha
 - Innovatively led the development of an AI-driven platform, redefining Magento store creation. Empowered users to articulate ideas, witnessing automated generation of impressive websites in just 60 seconds. marking the forefront of the AI revolution in web development.
- **ScandiPWA-Theme — Progressive Website App for E-commerce using React js**
 - Technologies Used: React js, Typescript, Redux, HTML, Javascript, Bootstrap, SCSS, MediaQuery, JQuery
 - Championed the end-to-end development of a dynamic frontend E-commerce platform with fully functional website in alignment with provided design specifications using React Js
- **UnicornPWA —Website created for E-commerce using React js from the scratch**
 - Technologies Used: React js, Redux, HTML, Javascript, Bootstrap, SCSS, MediaQuery, JQuery
 - Guided the end-to-end development of a robust frontend E-commerce website, orchestrating its creation from the initial stages to a fully functional platform. Ensuring seamless integration and delivering a user-friendly and feature-rich online shopping experience

- **Lafz - E-commerce Website for Cosmetics Products for Men and Women - [Link](#)**

- Technologies Used: React.js, TypeScript, Redux, HTML, CSS, Magento 2, GraphQL, ScandiPWA
- Spearheaded the development of a responsive and scalable e-commerce platform, delivering an intuitive and seamless shopping experience for users.
- Integrated Magento 2 to provide a powerful backend system, enabling efficient product management, order processing, and inventory control.
- Leveraged GraphQL for dynamic and efficient data fetching, improving the overall performance and responsiveness of the application.
- Implemented Progressive Web App (PWA) standards, offering users enhanced features like offline access, faster load times, and a mobile app-like experience.

- **Enamor - E-commerce Website for Ladies' Innerwear - [Link](#)**

- Technologies Used: React.js, TypeScript, Redux, HTML, CSS, JQuery, Mediaquery, Magento 2, GraphQL
- Customized the user interface to meet specific client requirements, enhancing the overall look and feel of the e-commerce platform.
- Focused on creating a seamless and engaging shopping experience through responsive design and intuitive navigation.
- Implemented best practices in front-end development to optimize performance, accessibility, and cross-device compatibility.
- Integrated Magento 2 to ensure efficient backend operations, including product management, order processing, and inventory control.
- Utilized GraphQL to enable efficient and dynamic data retrieval, boosting the application's performance and responsiveness.
- Adopted advanced front-end development practices to enhance performance, ensure accessibility, and maintain seamless functionality across all devices.

- **Thinkaroo — E-commerce Platform for Educational Toys and Stationery - [Link](#)**

- Technologies Used: Shopify, Redux, JavaScript, HTML, CSS, Mediaquery
- Developed a visually engaging and user-friendly e-commerce platform tailored for educational toys and creative stationery products.
- Enhanced the shopping experience through intuitive navigation and responsive design, ensuring compatibility across various devices.
- Integrated Shopify's robust features for efficient inventory management, secure payment processing, and seamless order fulfillment.
- Applied best practices in front-end development to optimize performance, accessibility, and cross-device compatibility.

LUMINAR TECHNOLAB (INTERN)
