Profile

Experienced Frontend Developer with **2.5 years** of expertise in the **JavaScript and React ecosystem**. I have worked in a product-based startup focused on B2B SaaS solutions, collaborating with cross-functional teams to convert complex requirements into streamlined, measurable outcomes.

Work Experience

Software Development Engineer 1

Zinier Technologies, Bengaluru | Nov 2022 – Present

- Engineered a solution for versioning in the **Studio Z module** using modern JavaScript libraries and a component-based architecture, reducing development time by **15%** and debugging time by **25%**.
- Spearheaded the development of a low-code/no-code customer portal module, enabling **JSON-driven UI** customization, empowering customers to build custom pages up to **30%** faster independently.
- Led a comprehensive training session for Zinier's US partners, providing a complete product overview and hands-on practice.
- Collaborated with cross-functional teams across the UK & US, conducting client demos to bridge business and technology.

Technical Skills

HTML5, CSS3 | JavaScript, ES6+ | ReactJS, Redux | Responsive Design | Git, REST APIs | Problem Solving

Soft Skills

Effective Communicator | Innovative Thinker | Quick Learner | Collaboration

Tools

Jira, Confluence | Figma, Postman | GitHub, Bitbucket | Jenkins
