PROFILE

A versatile professional with a background in frontend development and 3.5+ years of experience, I specialize in creating seamless user experiences. With expertise in JavaScript, React.js, and Redux, I am passionate about building responsive, dynamic, and user-friendly web applications. My strong problem-solving abilities and collaborative mindset make me a valuable asset in delivering high-quality frontend solutions.

EXPERIENCE

React Js & Remix Js Developer

UVH

📅 Present 📍 Mumbai

Joined UVH, a resource hiring firm, and was deployed to Veefin HQ. Worked on SCF_4.0, a supply chain finance platform for HSBC, enabling vendors to apply for loans and credits. Collaborated in a 20-member team, with 5 on the frontend, primarily using Remix JS, Redux, JavaScript, and React JS. Later contributed to an enhanced version of the platform for Kotak and other banks.

- Key Responsibilities and Contributions:
- Worked on SCF_4.0, a supply chain finance platform for HSBC, enabling vendors and dealers to manage accounts, track financial activities, and apply for loans and credits. Played a key role in the frontend development of the platform, focusing on user experience and financial data visualization. Collaborated in a cross-functional team of 20 members, with 5 dedicated to frontend development. Core technologies used: Remix JS: Developed scalable and optimized frontend components. Redux: State management and data flow optimization. JavaScript & React JS: Implemented interactive UI components and ensured responsiveness.
- Achievements:
- SCF_4.0 successfully manages over \$300cr in credit transactions and serves thousands of active users. Contributed to the successful delivery of the SCF_4.0 platform for
- HSBC. Participated in developing an enhanced version of the SCF_4.0 platform for Kotak and other banks, focusing on performance improvements and expanded financial features. Key Skills: Remix JS, Redux, JavaScript, React JS, Supply Chain Finance, Team Collaboration, Financial Platforms Development

Application Developer

Planet NEXTgen Technologies (2023-2024)

📅 2023 - 2024 📍 Mumbai

Project Experience

- Specialized in application development and seamless integration for various projects. Proficient in AngularJS and Bootstrap for developing dynamic and responsive user interfaces. Promptly implemented client-requested changes and enhancements to applications. Customized applications to meet specific client requirements and business goals. Experienced in working with applications such as OCS UnitXPro, Pulse, and others. Led UI development and API integration for a React-based project, ensuring seamless user experience and efficient functionality. Developed and deployed websites using WordPress, with live implementations for projects like journeyxpro.com and ocsservices.net. Successfully developed 5+ WordPress projects and contributed to the development of several more, enhancing application functionality and user experience.
- Shipment Management Application**
- Developed and integrated a shipment management application based on client requirements.
- Managed tracking of worker details and export-import operations within the application.

EXPERIENCE

Junior Developer

Tekno Point Multimedia Pvt Ltd.

📅 2020 - 2022 📍 Mumbai

Project Experience

- Played a key role in web development projects across **banking** and **e-commerce** domains, contributing to the successful development of websites for renowned organizations such as CEAT, Godrej Housing Finance Limited (GHFL), HDFC, and Balic SPG Buy Journey. Specialized in transforming mockups into functional web solutions using JavaScript, jQuery, HTML5, and CSS3.
Collaborated on the development of dynamic websites, utilizing a toolkit of HTML, CSS, JavaScript, jQuery, and Angular Bootstrap.
Leveraged **Adobe Experience Manager (AEM)** for front-end development, successfully integrating API requests and responses to manage dynamic content.
Contributed to the **CEAT** website's development, playing a significant role in the integration of JavaScript and AEM CMS, with the website going live internationally.
Worked on enhancing the **Godrej Housing Finance Limited (GHFL)** website using HTML, CSS, JavaScript, and AEM, with ongoing contributions for over two months, integrating API and AEM CMS tools to improve functionality. You can explore the GHFL website at www.godrejhf.com.
Involved in the creation of multiple modules for **national e-commerce** platforms, ensuring responsive, visually appealing designs and seamless functionality across various devices.

Front-End Developer

Kenmark Itan Solutions (6 Months Internship)

📅 2019 - 2020 📍 Mumbai

Project Experience

- Developed websites using **Bootstrap** and **Angular 8**, focusing on creating user-friendly and functional interfaces.
Specialized in enhancing user experiences through effective web development practices.
Worked on three key projects:
A **musical website** to showcase artist portfolios and events.
An **e-commerce platform** for seamless product listings and online transactions.
A **production house website** to highlight services and creative work.
Successfully created and launched a live website: <https://www.clapboyproductions.co>.
