

# SIDAK BHATIA

FRONT-END DEVELOPMENT | BACK-END DEVELOPMENT | DATABASE MANAGEMENT

[kaursidak297@gmail.com](mailto:kaursidak297@gmail.com) | [LinkedIn](#) | [GitHub](#) | [9340137005](tel:9340137005) | Panchwati ,PUNE

- Highly motivated and experienced full-stack software engineer with 3 years of hands-on experience in developing scalable, efficient, and innovative software solutions using frontend development technologies. Proven track record of delivering high-impact results. Staying current with industry trends and best practices in software development.
- Excellent communicator and team player with a passion for staying up-to-date with the latest industry trends and best practices. Committed to delivering high-quality, maintainable code and collaborating effectively with cross-functional teams to achieve business objectives.

## SKILLS & COMPETENCIES

- REST, HTTP, RDBMS, Microservices, OOP, System Design, Data Structures & Algorithms, Database schema design
- Java, JavaScript, Typescript, SQL, NoSQL, Bootstrap, HTML, & CSS
- Spring Boot, Spring Framework, React, Next.js, & Redux
- Git, GitHub, Docker

## PROFESSIONAL EXPERIENCES

Project Engineer (full-stack developer), CDAC Pune, India

May 2022 – Present

### Sangoshthee video conferencing solution

- Contributed to a comprehensive and secure video conferencing solution supporting various browsers and mobile platforms with features like multi-factor authentication industry-standard encryption protocols.
- Studied the codebase and contributed to detailed architecture study UI enhancement to make the interface more attractive and user-friendly, resulting in a 50% increase in positive feedback .
- Developed and implemented new features webinar mode presentation conduction, amplifying user engagement and resulting in a 40% increase in feature adoption.
- Worked on client-side code using JavaScript frameworks: React and Redux .

### Airawat-PSAI Website Development and NPSF TAS Application

- Developed a scalable web application for NPSF TAS using React.js, SpringBoot, Java, and MySQL.
- Incorporated e-signature integration using CDAC's e-Sign Service e-Hastakshar , resulting in a 50% reduction in paperwork and a 20% increase in process efficiency.
- Supported the Technical Affiliation Scheme (TAS) to encourage cost-effective use of high-performance computing resources and provide a state-of-the-art environment for researchers.

### Sangoshthee Manager

- **Meeting Scheduling System:** Developed a robust meeting scheduling system using PHP (Symfony), SQL (MySQL), and SMTP for email notifications, resulting in a 40% reduction in meeting scheduling errors and a 25% increase in user satisfaction.
- **Real-time Dashboard Tracking:** Implemented real-time dashboard tracking using JavaScript, WebSockets, and Socket.io, resulting in a 30% increase in user engagement and a 20% reduction in support requests.
- **Collaborative Meeting Experiences:** Integrated whiteboard and Etherpad features using JavaScript, WebRTC, and Socket.io for collaborative meeting experiences.
- **Custom Server Configuration:** Configured a custom server using Nginx, ensuring high performance and security. Integrated Keycloak for login authentication and used JWT for secure meeting links.

### Scaling and Load Balancing of Sangoshthee Manager

- **Load Balancing Strategy:** Designed and implemented a load balancing strategy using HAProxy and NGINX, ensuring high availability and scalability of the meeting server.
- **Server Performance Optimization:** Implemented server performance optimization by creating a pool of servers for load management, resulting in improved response times and throughput.
- **SSL Termination:** Ensured secure data transmission by terminating SSL connections at the load balancer.
- **JWT Authentication:** Implemented secure authentication using JSON Web Tokens (JWT) to validate user requests.

## PROJECTS

Project 1: E-Bharat – eCommerce Web Application- [ [Code](#) ]

React.js, Redux Toolkit, Firebase (authentication, real-time database, hosting), Razorpay, Vercel

Project 2: E-RTO (license apply application with admin dashboard)- [ [Code](#) ]

Java (Spring Boot), React.js, MySQL

Project 3: VideoHub – Video Streaming Application - [ [Code](#) ]

React.js, Redux, Firebase (Google login authentication), YouTube API

## EDUCATIONAL QUALIFICATIONS

Post Graduate Diploma in Advanced Computing - (83.13%)

Apr 2022

Institute for Advanced Computing Software Development (IACSD), Pune India

Bachelor of Engineering- (Computer Technology 84.9%)

Aug 2021

Nagpur University, India
