Summary

Software Developer with 3 years of professional experience, specializing in frontend development using the MERN stack (ReactJS, NextJS, TypeScript). Completed 1 year of full stack training at Masai School. Focused on building responsive web apps, writing clean code, and delivering great performance and user experience.

Education

Masai School <i>Full Stack Web Development</i>	May 2022 – Mar 2023 Bangalore, Karnataka
Yashwantrao Chavan Open University <i>Bachelor of Computer Application</i>	June 2020 – Feb 2023 Mumbai, Maharashtra

Technical Skills

Frontend: ReactJS, NextJS, HTML, CSS, Tailwind CSS, Material UI, Bootstrap
Backend: Node.js, Express.js
Database: MongoDB
Testing: Jest
Languages & Tools: JavaScript, TypeScript, Redux Toolkit, Git

Experience

Skysoft Global Pvt. Ltd. <i>Software Developer</i>	May 2023 – Present Noida, UP
- Developed responsive web apps using ReactJs and NextJs, focusing on performance and scalability. - Converted Figma designs into pixel-perfect UIs using Material UI. - Integrated GraphQL APIs to deliver smooth and dynamic user experiences. - Wrote unit tests using Jest to ensure application stability and reduce regression issues. - Collaborated with cross-functional teams to deliver features on schedule, following agile methodologies.	
Impact Infotech Pvt. Ltd. <i>Frontend Developer</i>	June 2021 – March 2022 Malad, Mumbai
- Developed responsive websites using ReactJs, leveraging Material-UI (MUI) and Tailwind CSS to enhance design consistency and performance. - Translated Figma designs into functional web interfaces, ensuring pixel-perfect accuracy and responsiveness across all screen sizes. - Assisted in maintaining component-level unit tests using Jest to validate UI logic and interactions.	

Projects

HRMS <i>NextJs, TypeScript, MUI, Jest</i>
- Designed and developed responsive user interfaces using NextJs and Material UI, ensuring a seamless experience across devices. - Implemented Context API for efficient state management, improving UI consistency and reducing frontend bugs by 15%. - Optimized frontend performance, reducing load times by 20% and improving user experience. - Wrote unit tests with Jest to validate component behavior and ensure application reliability.
Lekhas <i>NextJs, TypeScript, MUI, Firebase, Jest</i>
- Built modern, responsive UI components with Material UI and NextJs, focused on usability and accessibility. - Integrated Firebase authentication for secure user login and session management. - Collaborated on UI state management and dynamic rendering, improving component reusability and frontend maintainability. - Implemented unit testing using Jest to catch bugs early and improve development workflow.
