Hyderabad, Telangana, India

SUMMARY

Frontend Developer with 2+ years of experience in building responsive and dynamic web applications. Strong foundation in JavaScript, HTML5, CSS3, and frontend frameworks, with hands-on experience in Angular and transitioning skills to React.js for modern UI development. Proficient in component-based architecture, state management (using hooks and context), and API integration. Experienced in working with version control (Git), responsive design tools (Bootstrap, media queries), and Agile workflows. Known for writing clean, maintainable code and collaborating effectively with design and backend teams to deliver high-quality products.

Work Experience

SNA Technologies

Nov 2023 - Sep 2024

Frontend Developer

Hyderabad

- Built user interfaces using HTML, CSS, and JavaScript.
- Structured content with HTML and styled elements using CSS3 for enhanced design with attention to fonts, colors, spacing, and animations.
- Utilized Git and GitHub for version control, managing branches, pull requests, and collaborative efforts on projects.
- Collaborated with designers, content creators, and project managers to meet project requirements.
- Optimized site loading speed through techniques such as lazy loading and minimizing CSS/JavaScript files.
- Implemented REST API and services to securely retrieve user data and optimize application functionality.
- Ensured websites were mobile-friendly and cross-browser compatible with tools like Bootstrap, CSS Grid, and media queries.

Infosys Private Ltd

Feb 2022 - Oct 2023

Angular Developer

Hyderabad

- Developed and maintained robust web applications using Angular, emphasizing high performance and scalability with the latest Angular version.
- Implemented complex UI components and interactive features with Angular, enhancing user experience.
- Applied TypeScript to create modular, reusable, and maintainable code integrating professional communication and problem-solving skills.
- Integrated RESTful APIs and third-party services for optimized data retrieval and application functionality enhancement.
- Collaborated with UI/UX designers to transform wireframes and mockups into responsive designs, ensuring precise application of HTML5.
- Ensured the performance, quality and responsiveness of the angular application.
- Contributed to Agile sprints, using RxJS for asynchronous workloads and ensuring timely delivery of features and bug fixes.
- Maintained code quality with consistent version control practices using Git, managing branches, commits, and merges efficiently.
- Participated in unit testing with Jasmine and Karma to ensure robust application development and code integrity.

skills

- Angular Framework: Components, Modules, Templates, Directives, Pipes, Services and Routing, Typescript, RxJS, NgRx, Angular CLI, Jest, Enzyme, Jasmine, HTML, CSS, Bootstrap, JavaScript, jQuery, Restful API, Java, Python, MS Office, AWS, MySQL, RESTful services, Agile and Bitbucket.

Education

Pragati Engineering college, Surampalem

Jun 2016 - Sep 2020

Bachelor of Technology

Overall GPA: 7.4/10, Graduated with first-class honors

Certifications

- **Angular 7 Advanced Level Certification:** Great Learning
- **React JS Tutorial:** Great Learning
- **Python 101 for Data Science certification:** IBM (Cognitive class.ai)
- **Certification in Artificial Intelligence (AI) and Machine Learning (ML):** YBI foundation
