

Palak Mahapatra | Software Engineer

Bengaluru, India - 9148304888 - palakmahapatra@gmail.com - [linkedin.com/in/palak-mahapatra](https://www.linkedin.com/in/palak-mahapatra)

Career Objective

Motivated and detail-oriented **Frontend Developer** with hands-on experience in building responsive, user-friendly interfaces using **HTML, CSS, JavaScript (ES6+)**, and **React.js**, along with experience in **Manual Testing**. Seeking a role in a dynamic organization where I can contribute to successful project deliveries while continuously learning and growing in a collaborative, agile environment. Open to relocation.

Work Experience

Sasken Technologies Limited, Bengaluru, Karnataka, India
Associate Software Engineer

Aug 2022 – May 2025

- Developed **responsive user interfaces** using HTML, CSS, JavaScript (ES6+), and React.js
- Implemented **React Hooks** such as **useState** and **useEffect** to manage component state and side effects in dynamic views
- Created **reusable React components**, reducing code duplication and cutting development effort by approximately 20%
- Conducted **peer code reviews** to maintain a clean, modular, and scalable codebase aligned with team coding standards
- Validated **API requests and responses** using **Postman**, ensuring accurate frontend-backend data integration
- Integrated **RESTful APIs** into the UI to enable real-time data fetching and smooth user experiences
- Participated in **Agile methodologies** including daily stand-ups, sprint planning, and retrospectives to support iterative delivery
- Collaborated with QA in **application testing** and **bug validation**, contributing to quicker resolution of frontend issues
- Used **Git** and **GitHub** for version control, following branching strategies and collaborative workflows
- Contributed to **React-based applications** under the mentorship of senior developers, gaining hands-on experience in real-world project cycles

Technical Skills

Frontend: HTML, CSS, JavaScript, React Js, Hooks, Axios, Material UI, Webpack, Bootstrap

Testing: Manual Testing, Postman, API Testing

Tools: Visual Studio Code, Git, GitHub, MS Word, Excel, PowerPoint, Chrome Dev Tools, JIRA

Soft Skills: Team coordination, ownership, agile methodologies, adaptability, continuous learning

Certification

The complete guide to React - Udemy
Technology Job Simulation - Deloitte

Projects

CSAT – Customer Satisfaction Survey

A survey application designed to gather and analyze structured client feedback on service delivery.

- Developed and integrated APIs into the frontend to dynamically fetch and display survey data, ensuring a seamless user experience.
- Executed manual UI flow testing to validate user journeys and identify usability issues.
- Performed API response validation using Postman, which was instrumental in identifying and assisting in the resolution of critical UI bugs.

Tech Stack: React.js, JavaScript, Material UI, Manual Testing

Enterprise Provisioner

An application built to automate the provisioning and configuration of Android devices, significantly reducing manual effort and ensuring devices are ready for immediate use with predefined settings.

- Collaborated closely with the QA team to perform end-to-end workflow testing, identify, and document bugs, and manage tasks within Jira, streamlining the defect resolution process.

Tech Stack: JavaScript, GitHub, Manual Testing, Jira

Connected Car

A dashboard application that provides real-time monitoring of car health metrics, including fuel levels, battery status, and location data.

- Contributed to the frontend by building reusable UI component, following guidance from senior developers, and adhering to best practices.
- Implemented responsive design principles using CSS to ensure optimal viewing and functionality across various screen sizes.

Tech Stack: HTML, CSS, JavaScript, React.js

Education

Visvesvaraya Technological University (VTU), Belagavi, Karnataka
Bachelor of Engineering in Electronics and Communication

2018-2022
