- **D. A.V. Public School, Pune (CBSE Board)**
SSC | CGPA – 6.60 | June 2016

Experience

Agile Soft Systems Inc: September 2022 - June 2025

Job Title: Software developer (React JS and UI Developer)

Job Internship: 9 MONTHS

Completed training, In-house projects and contributed project using core web technologies

Worked on Projects for clients based in India and US.

- **AI PDF Chatbot | ReactJS, NodeJS, Python, MarkItDown, Google Gemini**
Developed a platform that enables users to upload PDF documents and interact with a Chatbot to ask questions and receive answers based on the content of the uploaded PDFs.
- **Homeowner Service Request Platform | ReactJS, Bootstrap, Redux**
Responsible for managing and delivering the project, from development to deployment. Key responsibilities included developing user interface components, building reusable components, optimize performance across devices and browsers and collaborating with backend developers for API integration. Also focused on troubleshooting and resolving software issues while ensuring best practices and high-quality standards.
- **Obituary Platform | ReactJS, Material UI**
Built UI for a memorial platform including pet obituaries. Focused on reusable components, mentoring juniors, integration, and deployment.
- **University Management System | ReactJS, Next.js, Tailwind CSS**
Created responsive UI pages based on Figma designs to support university operations.
- **Lecture Scheduling & Video calling | ReactJS, Material UI**
Resolved scheduling issues and implemented a video calling feature for online lectures.
- **Award Pooling System | ReactJS, Material UI**
Developed a voting platform for internal events like "Employee of the Year." Built reusable components, collaborated on UI, and optimized performance.

College Internship

ARAI (Automotive Research Association of India), Pune

Duration: 06 months • JAN 2022 – June 2022

C++ Developer Intern | C++, Python, PySide2 Qt, CANdb++

Development for Advanced Driver Assistance System (ADAS) Platform.

Description: Developed a user interface to enable communication between CAN hardware and software during my internship. Initially implemented in C++, later transitioned to Python for extended features. Built a GUI using PySide2 (Qt) to allow data input and frame configuration for CAN transmission, contributing to an ADAS platform.

Software Skills

- HTML
- CSS
- Bootstrap
- JavaScript
- React.js
- TypeScript
- Next.js
- Material-UI
- TailwindCSS
- Redux
- Restful APIs
- NPM
- Markdown
- Python
- Node.js
- C Programming
- C++ Programming
- Java

Software Platforms or Software Tools Used

- VS Code
- Git
- Jira
- Swagger
- Postman
- Microsoft Teams

Additional Certifications

Seed InfoTech Institute, Pune

- 'C' Programming
- 'C++' Programming
