PROFILE

I'm a young industrial and visual designer that wants to use her expertise of design to address issues. Having worked as an industrial and visual designer for 3 years. Product design was the focus of my undergraduate studies and did my master's in graphic design. My work is something I am enthusiastic about, and I look forward to using design to improve human lives in our fast-paced world. I approach every design holistically, excluding only originality, pragmatism, and uniqueness. I have a multidisciplinary approach, having worked on projects ranging from UI/UX to branding, social media creatives, product design, and packaging. Experienced Junior Graphic Designer with a Master's degree in graphic design. Proficient in Adobe Creative Suite (Photoshop, Illustrator, InDesign) and passionate about creating compelling visuals that elevate brand narratives.
