Projects

Global ABM Campaigns for Pharma Giants	
Objective: Strengthen engagement for Pfizer, Genentech, and Novartis through WebMD Patient Education brand initiatives.	
Actions: Designed and launched native feature campaigns leveraging advanced audience insights, programmatic advertising, and predictive analytics.	
Impact: Delivered high ROI campaigns across multiple markets (USA, France, Spain, Portugal, India), reducing CPC and increasing conversion rates significantly.	
Predictive Audience Analytics Integration	
Objective: Enhance decision-making and improve campaign forecasting accuracy.	
Actions: Integrated AI-driven tools into marketing workflows for audience segmentation, conversion probability scoring, and performance prediction.	
Impact: Increased targeting precision, reduced campaign waste, and drove cost-efficiency across international markets.	
Bulk Campaign Automation & Targeting Framework	
Objective: Streamline large-scale campaign execution across devices and locales.	
Actions: Built automation workflows for bulk campaign setups and implemented device/location-based targeting strategies.	
Impact: Cut setup time by 60% while ensuring hyper-personalized audience reach, resulting in higher engagement and lower costs.	
Advanced Analytics-Driven Optimization	
Objective: Maximize ROI across WebMD sponsorship and media ad campaigns.	
Actions: Conducted deep performance audits using Adobe Analytics, GA4, and Meta Analytics; implemented A/B testing to refine creatives and targeting.	
Impact: Improved conversion rates and reduced effective costs, producing measurable gains in campaign efficiency.	
Executive Reporting & Strategic Planning	
Objective: Provide leadership with actionable insights for budget and strategy alignment.	
Actions: Created detailed monthly reports covering ad spend, margin analysis, and optimization opportunities; collaborated with cross-functional teams to adjust campaigns in real-time.	
Impact: Supported strategic decisions that boosted profitability and sustained long-term partnerships with billion-dollar clients.
