EXPERIENCE

• Associate Software Engineer : Virtusa Consultancy Services

May 2022 - Present

- 2.8 years of experience as a Full Stack Developer specializing in React/Next, JavaScript, Node.js, Express.js, and REST APIs.
- Built responsive, user-friendly web applications, ensuring seamless integration between front-end and back-end services, with proven expertise in developing efficient and scalable applications focused on performance optimization. Leveraged a strong understanding of industry-specific best practices and development methodologies to deliver high-quality software.
- Worked closely with crossfunctional teams including UX/UI designers, backend developers, and product managers, contributing to stories and successfully delivering new features on time.
- Optimized React/Next.js application performance by implementing best practices, reducing bundle size, and enhancing rendering efficiency, leading to a 30% improvement in performance and a 25% reduction in processing time.
- Engineered seamless integration of RESTful APIs, enhancing data retrieval speed by 30% and improving overall application responsiveness while ensuring crossbrowser compatibility through effective implementation of responsive design principles.
- Engineered key features for Reliance Standard Life Insurance Company (RSL), one of the world's leading insurance institutions.

EDUCATION

–Bachelor of Technology in Electronics and Communication Engineering

Jul 2018 Jun 2022

Asansol Engineering College, Asansol, 2018-22

CGPA: 8.12

PROJECTS

–Reliance Matrix

Built a web application to showcase the company's financial products and services effectively. .

- * Spearheaded the development of customer-facing web applications using NextJS, TypeScript, NextUI, Tailwind CSS and Sitecore Headless.
- * Directed efforts to optimize application performance, resulting in a 20% reduction in page load times and improved overall user experience.
- * Utilized Axios and Fetch API for efficient data retrieval, demonstrating adeptness in employing various HTTP request methods

–MediaHub

Backend API for Video Streaming Platform with User Authentication, Video Upload and Interactive Features.

- * Designed and developed a comprehensive backend API similar to YouTube using Express.js, enabling user login and signup with robust authentication and authorization.
- * Implemented support for multiple user sessions with secure cookies for session management.
- * Developed endpoints for video upload functionality, ensuring efficient handling of media files.
- * Created watch API to support video streaming with real-time view tracking.
- * Built features for adding comments and likes, enhancing user interaction and engagement .

TECHNICAL SKILLS AND INTERESTS

Languages: JavaScript (ES6+), TypeScript, Java

Technologies: ReactJS, NextJS, NodeJs, Express JS, Spring Boot, ContextAPI, Redux, HTML5, CSS3, Tailwind CSS, Jest

Development Tools: : Git, Webpack, Babel, Visual Studio Code, Postman

Databases: MongoDB, MySQL

Project Management and DevOps: Git, Agile Methodologies, Scrum, DevOps(Basics)

CERTIFICATIONS

–Certificate Name: Oracle Certified Associate, Java SE 8 Programmer (1Z0-808)

Issuing Organization: Oracle

ACHIEVEMENTS

- Awarded as a Top Talent during internship and appraisal cycle.
- Earned the Star Performer Award for outstanding performance and key contributions to the team.
