<https://linkedin.com/in/manoj-patil-92524772/>

Enterprising Leader with proven track record of leading cross-functional teams in delivering cutting-edge web solutions. Skilled in agile methodologies, AWS Lambda, and a comprehensive tech stack including PHP, Node.js, and MongoDB. Committed to driving innovation and exceeding project goals through strategic planning and execution.

Education

- 2008: MCM in Computers and Management from North Maharashtra University (NMU)
- 2005: B.A in English from North Maharashtra University (NMU)

Core Competencies

Senior Project Management

Full Stack Development

Agile Project Management

Technical Leadership

Solution Architecture

Cross-Functional Team Leadership

Web Development Expertise

Cloud Computing Integration

Client Relationship Management

Team Building & Leadership

Soft Skills

Change Catalyst

Attention to Detail

Thought Leader

Critical Thinker

Certifications

- Project Management Foundations: Teams - Linkeein 2024
- Agile Foundations - Linkerlin 2024
- Getting started with NodeJS - SimpiHearn 2024
- Advanced Mastering Node js - MindLuster 2024

Profile Summary

- Seasoned Project Manager** over 15 years of comprehensive experience as a Project Manager, specializing in **both frontend and backend web development**. Proficient in the entire project lifecycle from inception to delivery, ensuring high-quality solutions aligned with business objectives.
- Technological Expert**; skilled in a diverse range of technologies including PHP, HTML, JavaScript, MySQL, Drupal, Laravel, Node.js, and more. Skilled in AWS Lambda, JIRA, and Agile Methodology, facilitating streamlined project management and execution.
- Skilled in developing robust payment gateways for both Indian & international markets, with expertise in compliance, security, integration with diverse payment providers, and optimizing user experience to ensure seamless transactions and customer satisfaction.
- Strategic Leadership**: showcased leadership in guiding and motivating cross-functional teams to deliver exceptional results. Successfully led teams ranging from 3 to 7 software engineers, fostering collaboration and innovation.
- Solution Architect**: Known for designing & developing innovative web-based applications tailored to meet diverse industry requirements. Proficient in incorporating cutting-edge technologies and best practices to deliver scalable and robust solutions.
- Effective Communication**: Strong communicator skilled in articulating project requirements, facilitating productive discussions, and ensuring clear understanding among team members. Experienced in client interaction, requirement gathering & sprint planning.
- System Architecture Specialist**: Proficient in designing and implementing scalable and efficient system architectures for web-based applications. Skilled in utilizing MVC architecture, microservices, and cloud computing technologies to ensure optimal performance, reliability, and scalability of software solutions.
- Consistently **delivered successful projects across various domains including finance, e-commerce, and nutrition**. Instrumental in the development of high-impact solutions such as Portcart.com, integrating complex functionalities for enhanced user experience.

Work Experience

Since Dec'22 | **Fedbank Financial Services Ltd. - Fedfina** | Sr. Project Manger
Growth Path:

- Delivered high-impact web solutions for diverse industry organizations.
- Proven expertise in designing, developing & testing multiple web-based applications.
- Proficient in incorporating a range of technologies to ensure optimal performance.
- Aspired to combine a broad background with strong technical skills to excel as a frontend and backend web developer.
- Specialized in Vulnerability Assessment and Penetration Testing (VAPT) development.

Nov'19 - Dec'22 | **Vee Bee Solutions & Services Pvt. Ltd., Navi Mumbai** | Sr. Team Lead

- Proactively engaged in learning new technologies to keep the team updated with industry advancements.
- Specialized in developing modules including Admin, Retail Operators, Delivery, GST with Invoices, and payment gateway integration.
- Implemented Portcart commission calculation and managed multiple payment gateway integrations.
- Integrated GST rates APIs into payment gateways for Retail Operator mobile apps.
- Developed APIs for Shopper App, ensuring seamless functionality and user experience.
- Implemented Agile methodologies during department expansion, resulting in a 15% increase in productivity.
- Conducted regular meetings to maintain workflow alignment and ensure team members met project deadlines.
- Led a team of 4 software engineers to successfully deliver projects on schedule
- Utilized a variety of e-commerce systems, handling both front-end and back-end functionalities effectively.

Technical Skills

- **Programming Languages and Frameworks:** PHP, HTML, JavaScript, Node.js, Laravel, CodeIgniter, Express
- **Database Technologies:** MySQL, MS SQL Server, MongoDB, Redis
- **Web and Application Development:** Drupal, WordPress, Magento
- **Development Tools and Methodologies:** JIRA, Agile Methodology, MVC Architecture
- **Cloud and Serverless Technologies:** AWS Lambda
- **Search and Indexing:** Elastic Search
- **API and Integration:** REST API, Twitter OAuth API, CC Avenue, PayPal Checkout
- **Other Technologies:** Ajax, jQuery

Awards

- Sep 2013: Employee of the month (ITShastra)
- Oct 2014: Employee of the month (ITShastra)
- Nov 2015: Employee of the month (ITShastra)
- 2019: Employee of the quarter (Portcart)
- Sep 2023: You make a Difference

Personal Details

Date of Birth: 20th October 1984
Languages Known: English, Marathi, Gujarati & Hindi

- Developed Node.js APIs following a microservices architecture for improved scalability and flexibility.
- Leveraged AWS services such as EC2, S3 Bucket, and RDS, alongside CI/CD tools like Jenkins, to streamline development and deployment processes.

Oct'18 – Nov'19 | [Balance Nutrition Pvt. Ltd., Mumbai, India](#) | **Programing Head**

- Developed & maintained server-side PHP applications, ensuring functionality, performance, and responsiveness.
- Led a team of 6 software engineers to successfully deliver projects on time and within scope.
- Collaborated with cross-functional teams, including designers and developers, to define project specifications and implement features, including APIs for Shopper App.
- Integrated data from various sources and databases into PHP applications to enhance functionality and user experience.

Mar'18 – Oct'18 | [Maitriinfosoft](#) | **Team Leader**

- Led a team of 4 software engineers, ensuring successful project delivery.
- Clearly understood the purpose and objectives of each project to maintain focus and direction.
- Maintained a balance between project requirements and adherence to timescales and budget constraints.
- Engaged in hands-on coding of specific critical modules to ensure quality and efficiency in development processes.

Aug'16 – Mar'18 | [Trendsutra Platform Services Private Limited](#) | **Senior Software Engineer**

- Elevated project success rates by focusing primarily on hands-on coding, while also providing strategic input into the architecture of pivotal modules.
- Demonstrated a keen understanding of product manager requirements, resulting in streamlined project alignment and enhanced deliverable quality.
- Spearheaded the implementation of best coding practices within the team, leading to significant improvements in overall code quality and maintainability.
- Drove innovation and efficiency in Laravel applications development, resulting in optimized performance and enhanced user experiences.

Jul'07 – Jul'16 | [ITShastra](#) | **Tech Team Leader**

- Spearheaded a team of 2 designers and 5 software engineers, driving successful project deliveries.
- Demonstrated a thorough understanding of project objectives, ensuring alignment with team efforts.
- Maintained an optimal balance between project tasks and other responsibilities, adhering to timelines and budget constraints.
- Actively contributed to hands-on coding of crucial modules, ensuring high-quality deliverables.
- Successfully sourced top talent and established a robust infrastructure R&D team to foster innovation and support project development.
