
Work Experience

Software Development Engineer | Park+

~ Oct 2024 - present

- Created a user-friendly **mall parking service** from scratch, resulting in a **10%** increase in growth.
- Built a **help and support ticketing system**, enabling dealers to efficiently track their concerns, resulting in a **15%** improvement in issue resolution time.
- Implemented features for **auto and early renewal** of fuel SaaS vouchers, streamlining dealer operations and increasing process efficiency by **12%**.
- Developed trip-based **driver onboarding support**, enhancing onboarding efficiency by **18%**.

Software Development Engineer | GeeksForGeeks

~ Sept 2022 - Oct 2024

- Revamped **Edit Profile** section and **Article Page**, enhancing user interaction by **5%**.
- Migrated GeeksforGeeks **jobs page** and **homepage** to **React.js**, boosting performance by **10%**.
- Independently **managed** diverse **landing pages** (e.g., articles, job listings, advertisements) to ensure optimal **responsiveness** and enhance **user engagement by 6%**, in line with business requirements.
- Added **CodeMirror editor** in article pages, extending functionality to **AMP pages**, boosting mobile engagement by **3%**.
- Integrated **several APIs** (e.g. Google Play Integrity API, Google Search API), to enhance platform **functionality** and **security by 10%**.
- Utilized technical **SEO** techniques, achieving a **4%** increase in search engine **rankings**.

Skills

- **Tools & Technologies:** C/C++, Python, HTML5, CSS3, JavaScript, React JS, Next JS, TypeScript, NodeJs, Bootstrap, Materialize CSS, Sass, PHP, MySQL, GIT
- **Industry Knowledge:** Data Structures, Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Git, JIRA, Search Engine Optimization (SEO), UI/UX Design.
- **Others:** Leadership experience, decision-making expertise, management, and communicative abilities.

Projects

Code Search

- A platform where users can find the **solutions of coding problems** just by searching the name of the problem.
- It also has the feature to **find other approaches** to the problem and to get “**code through AI**”.
- Users can also run the code using the **code editor** present there to see the expected output at one place.

Sorting Visualizer

[[Link](#)]

- It is an interactive online platform that **visualizes sorting algorithms** like Merge Sort, Bubble Sort, etc.
- It helps students to visualize and **compare the complexities** of sorting algorithms.

Education

- **B.Tech in Computer Science and Engineering** | **Dr. AITH Kanpur, U.P** 2018 - 2022 | CGPA - 8.4
- **12th** | **CBSE Board** | **Holy Point Academy, Etawah, U.P** 2015 - 2017 | %age: 88.4

Awards and Achievements

- Won **2nd Rank (Silver Developer Certificate)** in **National Level Bootathon** organized by REC Banda in collaboration with **IIT Bombay** and **MHRD**
- Secured **2nd place** in **Startup Conclave** organized by **Venture Capitalists** at HBTU kanpur.
- Solved **700+ coding problems** on various platforms such as LeetCode, GfG.
