ABOUT

Results-driven Frontend Developer with 2+ years of experience crafting responsive, user-friendly web applications using HTML, CSS, JavaScript, and React. Skilled in optimizing performance, enhancing UI/UX, and collaborating with agile teams to deliver scalable solutions. Passionate about creating innovative digital experiences that meet business goals.

WORK EXPERIENCE

Millenium Intech, Chennai | *Junior Software Developer*

Nov 2022 – Present

Project : Radiolens

- ❖ **Pioneered the end-to-end development** of Radiolens, a high-impact product built from the ground up, driving innovation and delivering scalable, user-centric solutions.
- ❖ **Designed and implemented** a robust login UI module with OTP-based email and mobile authentication, enhancing system security and user accessibility.
- ❖ **Developed and optimized** dynamic, responsive web applications using React and Redux, achieving exceptional performance and scalability standards.
- ❖ **Streamlined development processes** by configuring Husky, ESLint, and Babel across projects, ensuring adherence to coding standards, and accelerating delivery timelines.

Asahi Technologies Pvt Ltd., Chennai | *Software Trainee*

Feb 2022 – Jul 2022

- ❖ **Joined as a Software Trainee**, gaining foundational expertise in CSS, HTML, JavaScript, and React Native for dynamic web and mobile development.
- ❖ **Contributed to the design and development** of Lofti, a dating app, by implementing styling and basic functionalities, enhancing the app's visual appeal and usability.
- ❖ **Strengthened front-end development skills** by working on real-world projects, focusing on responsive design and interactive user interfaces.

TECHNICAL SKILLS

- **Frontend Technologies:** HTML, CSS, JavaScript, TypeScript, ReactJS, Redux, Bootstrap
- **Programming Languages:** C, Core Java
- **Developer Tools:** Git, Visual Studio, Eclipse

PROJECTS

Country List App

- ❖ **Developed a responsive web application** showcasing country details such as population, currency, and region, with dynamic filtering functionality using advanced JavaScript.
- ❖ **Created an intuitive and adaptive UI** with HTML, CSS, and Bootstrap, ensuring seamless user experience and cross-device compatibility.

Restaurant Application

- ❖ **Built a Restaurant App from scratch** using React.js, integrating Swiggy API to dynamically display restaurant data.
- ❖ **Implemented routing functionality** to enable seamless navigation between components, enhancing user experience and application performance.
