PROFILE SUMMARY

Dynamic UI developer with expertise in building responsive, user-focused web applications using React and TypeScript. Skilled in creating scalable, maintainable front-end solutions with a keen eye for design. Excited to contribute to impactful projects and expand into full-stack roles for end-to-end development.

WORK EXPERIENCE

- Associate Projects@**COGNIZANT** (26 FEB 2024 - present)
 1. Develop and implement new features in a dashboard application for BMW group using React, AG-Grid, TypeScript, MongoDB, GraphQL, and Ant Design. Integrate frontend interfaces with backend APIs, ensuring efficient data flow and handling asynchronous operations.
 2. Ensure cross-platform compatibility by testing and debugging code across various browsers and devices.
- Implementation Web Developer@**TRUEBLUE** (01 Dec 2023 - 26 Jan 2024)
 1. Understanding client requirements for new and existing web portals and providing workable design mock-ups. Developing and delivering web portals like Sass platforms. Providing support to a range of clients on technical issues Ensuring that our resolution timings based on client SLAs are met.
 2. Collaborating with Australian research and development team on a daily basis for new feature or implementation.
- Senior Front-End Developer@**MOBILECODERZ** (01 Feb 2022 - 30 Nov 2023)
 1. Design and implement robust frontend architectures, incorporating best practices like state management, code splitting, and lazy loading for optimal performance. Collaborate with UI/UX designers to translate design concepts into functional frontend components, ensuring consistency, usability, and accessibility.
 2. Ensure cross-platform compatibility by testing and debugging frontend code across multiple browsers, devices, and screen sizes. Integrate frontend interfaces with backend APIs, architecting efficient data flows and handling asynchronous operations using techniques like promises and async/await or libraries such as Axios.
 3. Document frontend architectures, design patterns, and development workflows to facilitate collaboration and knowledge sharing within the team.
- UI Developer@**SWARAGH TECHNOLOGIES** (09 Dec 2019 - 21 Jan 2022)
 1. Convert design mockups (wireframes, prototypes) into fully functional user interfaces using HTML, CSS, and JavaScript. Ensure compatibility and performance of UI across multiple browsers.
 2. Adhere to accessibility guidelines (WCAG) to ensure the interface is usable for people with disabilities. Add features like keyboard navigation, proper alt text, and ARIA attributes.
 3. Stay updated with industry trends, new tools, and technologies in UI/UX development while also participating in team discussions and seek guidance from senior developers.

TOOLS AND TECHNOLOGIES

React JS, Next JS, Typescript, Javascript, Ant Design, Chakra UI, React Redux , React Query, Node JS, HTML5, CSS3, Tailwind CSS, Bootstrap

EDUCATION

BACHELOR OF ENGINEERING - ISE

Visvesvaraya Technological University (2015 - 2019)
