About

A skilled Frontend Developer with extensive experience in building responsive, user-friendly web and mobile applications using **React.js**, **Next.js**, and **React Native**. Proficient in modern JavaScript (ES6+), TypeScript, and state management libraries like Redux and Context API. Adept at crafting dynamic UI components, optimizing performance, and implementing clean, maintainable code. Demonstrates strong problem-solving skills, a keen eye for detail, and a passion for delivering seamless user experiences across platforms. Experienced in collaborating with cross-functional teams to ensure efficient project delivery and smooth deployment.

Education

Tolani College of commerce and arts, Bachelor in Science and IT July 2017 – Oct 2020

- GPA: 6.75/10
- **Coursework:** Computer Science, Data Structures and Algorithms, Dynamic programming

Experience

Senior Frontend Developer, Zyntric Services – Mumbai Nov 2024 – Present

- Leading and mentoring a team of 7 junior developers, ensuring project success and technical growth
- Skilled in Agile practices, code reviews, and fostering cross-team collaboration
- Strong focus on clean coding standards and improving application performance.
- Proficient in translating designs into responsive, pixel-perfect, and accessible interfaces.

React Developer, We3 Tech – Client: Motlial Oswal Financial Services, Mumbai Jan 2024 – Nov 2024

- Experienced in collaborating with cross-functional teams in Agile environments to deliver high-quality solutions
- Proficient in debugging and resolving complex issues, with hands-on experience tackling a wide range of frontend bugs
- Follows best practices in React development, ensuring clean, maintainable, and optimized code
- Proficient in applying the DRY principle to create reusable components and efficient code structures
- Skilled in optimizing application performance through code-splitting, lazy loading, and efficient state management
- Strong understanding of modern JavaScript, ES6+ features, and responsive design principles

Frontend Engineer, WOW Rooms hospitality – Mumbai May 2022 – Dec 2023

- Proficient in developing responsive and user-friendly interfaces using modern JavaScript (ES6+)
- Hands-on experience with state management tools like Redux and Context API
- Worked on integrating REST APIs and ensuring smooth data flow across components
- Familiar with Git for version control and Agile workflows for collaborative development
