WORK EXPERIENCE

Software Engineer Capgemini

08/2022 - Present

Mumbai, India

Achievements/Tasks

- Worked on multiple web and mobile application projects for US clients.
- Gathered requirements from clients and collaborated with different teams.
- Delivered my first React project with a client satisfaction score of **4.78/5**.
- Built mobile apps with React Native for Android, ensuring smooth performance.
- Implemented **Redux** for efficient data management.
- Worked with Node.js, Express, and Flask to build scalable solutions.
- Used Git for version control and CI/CD to streamline app updates.
- Trained juniors on React to onboard them to the project.
- Integrated Azure AI into a web app to meet the client's urgent need for **GenAI** solutions.

Software Developer Intern

Vidyalankar Institute of Technology

06/2021 - 09/2021

Mumbai, India

Internship Offered by my college.

My Contribution

- Transformed a static web application into a desktop application using Electron.js for Windows.

Data Science And Business Analytics Intern

The Sparks Foundation

03/2021 - 04/2021

Online

Achievements/Tasks

- Machine learning tasks were assigned to me, including regression on student marks and iris classification.
- Performed and showcased these tasks while helping my peers.

EDUCATION

B.E - Information Technology

Vidyalankar Institute of Technology, Mumbai

2018 - 2022

9.61 cgpa

SKILLS

React.js

React Native

JavaScript

Express.js

Node

HTML5

CSS3

Bootstrap

MUI

Python

Flask

Azure Services

Aws Services

PROJECTS

Remote Order Taker - MCD Client

- Automated the order-taking process in a drive-through using React and AWS.
- Built React components based on the provided UI wireframe.
- Closed **95%** of the Jira tasks assigned to me.
- Delivered a unit testing report with **93%** coverage.
- Provided support for AWS services like DynamoDB and Lambda.

Power Plant Automation - Nestle Client

- Food plant automation project for recording trial data using React and Azure.
- Developed a React web app with dynamic form loading based on trial parameters
- Reduced trial setup time by **50%**.
- Utilized Azure AI capabilities to gain deeper insights into trial data.
- Created REST APIs to communicate with various Azure service.

Smart Pet Care - Nestle Client

- Contributed to a mobile app for collecting sensor data from devices like pet collars and bowls.
- Implemented multiple BLE communication protocols in the app.
- Reduced communication delay by **7%**.

CERTIFICATES/TRAINING

Trained on integrating opensource LLM model in react native/react app.

Web Development on Coursera.

SQL for Data Science on Coursera.

Specialization in Python on Coursera.

EXTRACURRICULAR ACTIVITIES

JPMorgan Chase & Co Virtual Experience Program Participant.

Participated in the open access JPMorgan Chase & Co Virtual Experience Program with Forge.
