- | | |
|-----------------------------------|------------------------|
| ● React JS / Redux | ● Node JS/ Express JS |
| ● JavaScript ES6 / TypeScript | ● Payment Integration |
| ● REST API creation / integrating | ● Sass / Bootstrap |
| ● Data source- Mongo DB / JSON | ● HTML5 / CSS3 |
| ● Version tool – Git | ● Next JS |
| ● Redux-Toolkit | ● JWT (JSON Web Token) |

EDUCATION

Bachelor Of Technology (B.TECH) in Computer Science & Engineering, 2018-2022
From AKTU, Lucknow, India.

WORK EXPERIENCE

Hydoodle Technologies Private Limited, Hyderabad, India

Jan 2023 – Present

Software Engineer

The Hydoodle Technologies Private Limited is an innovative software developing Company focused on Web-Based Applications. The company Specializes in Application Development and Maintenance, Data Analytics, Digital Services, Enterprise Application Integration and Business Process Management, Engineering R&D, Enterprise Application Services, Independent Testing, Infrastructure Management Services and IT Strategy & Consulting.

PROJECT WORK

- **Health Insurance Mobile App:** The health insurance app I worked on is a comprehensive platform designed to help users manage their health insurance policies, access policy details, file claims, make premium payments, and find healthcare providers within their network. It offers a user-friendly interface, making it easy for customers to navigate their insurance needs.

- **Banking Application :** Designed and developed responsive user interfaces for core banking operations using **React.js**.

Built reusable and scalable components for features like **fund transfer**, **transaction history**, and **bill payments**.

Integrated **RESTful APIs** for user authentication, account management, and transaction processing.

Implemented **role-based authentication** using **JWT** to secure sensitive user data.

Optimized the application's performance by improving API calls and reducing load times by **30%**.

Created interactive dashboards with **dynamic charts** for real-time financial insights using libraries like Chart.js.

Wrote and maintained unit and integration tests, achieving **95% code coverage** with **Jest**.

Collaborated with cross-functional teams to meet project deadlines and deliver a seamless user experience.
