form, Tailwind CSS, HTML**

Priyanka Bhola

☎ 8779709515 ✉ priyanca818@gmail.com 📍 Navi Mumbai, Maharashtra 📄 [Linkedin](#)

Front End developer with over 3 years of experience and PG-DAC. Proficient in React.js, Typescript, Javascript, API Integration, Node.js, Tailwind CSS, building scalable web apps etc., seeking opportunities to solve real-world problems with reliable and creative delivery.

WORK EXPERIENCE

Software Engineer, Demandhelm

Nov 2021 – present

- Streamlined the process of tracking competitors using **redux, RTK query, rechart, tanstack** saving users 4 min per product track.
- Implemented Alert system for customizable triggers regarding inventory, sales & budget with **seamless API integration** enabling analysts to make data driven decisions proactively.
- Built Campaign Creation leveraging **React hook form** with media uploads, product targeting and real time Ad preview minimizing context switching to Amazon platform increasing app-user engagement by 25%.
- Wrote 200+ automated test cases for bulk action tables using **Vitest**, achieving an 80% bug detection post release
- Collaborated with team of 5 to create a **node.js** library with lightweight components using **Tailwind CSS & Radix UI** enhancing UI consistency, cutting app size by 10%.
- Directed the official DH website development and its migration from **React.js to Remix.js**, improving **SEO ranking** by 35% and enhancing online visibility.
- Used **Puppeteer** to convert extensive **HTML** content (dashboards, tables, charts) with **JSON** feed into weekly PDF reports
- Developed a **responsive feature page** with multiple tabs, registration form, and free feature trial controlled to five uses per user, all completed within a 2-day timeframe.
- Created a **feedback system** for users to submit bugs and ideas with priority levels, also allowing them to view the solving status, increasing hot bugs resolution by 30%.

Quantity Surveyor, Createch Architects

Nov 2019 – March 2020

Prepared official estimations for multi-crore projects managing civil work, construction material, coordinated with clients and vendors on-site parallelly.

Ast. Quantity Surveyor, Devidas Auti Consultancy

April 2019 – Oct 2019

Calculated civil works using AutoCAD and Excel, oversaw interior for a corporate office seating 100 employees, & it's on-site estimations.

EDUCATION

PG Diploma in Advanced Computing (PG-DAC)

March 2021 - Nov 2021

Shriram Mantri Vidyanidhi Infotech, Mumbai

Bachelor of Engineering

Sept 2014 – Nov 2018

Pillai Hoc College of Engineering & Technology, Rasayani
