TECHNICAL SKILLS

Languages: Java, C#, Python

Technology Stack: React, Redux, TypeScript, Angular, JavaScript, HTML, CSS, GitHub

Databases: PL/SQL, MSSQL, Firebase

Tools: Visual Studio Code, Visual Studio, IntelliJ IDEA, ExlipseIDE

PROFESSIONAL EXPERIENCE

Aptologics Private Limited

05/2023 – Present

Software Engineer - I

Ahemdabad, Gujarat

- Optimized core frontend functionality using React, Angular, and TypeScript, increasing performance by 30% through reusable components and code refactoring, improving maintainability and performance.
- Reviewed and improved code quality, leading to a 20% reduction in bug reports by mentoring 3 junior developers and ensuring constancy to best practices in development.
- Collaborated with clients to gather requirements, analyze solutions, and deliver product improvements aligned with business needs.
- Contributed to backend API development, reducing response times by 25% and supported deployment processes using CI/CD pipelines.
- Integrated OAuth, Keycloak, and third-party services like SurveyMonkey and DataDog, enhancing system functionality and security.

e-Procurement Technologies Ltd

12/2022 – 04/2023

Software Engineer Intern

Ahemdabad, Gujarat

- Contributed to frontend development using JavaScript, HTML, and CSS, collaborating with the team to deliver user-friendly interfaces, resulting in a 20% improvement in user engagement.
- Developed backend APIs using Java and Spring Boot, enabling seamless integration and supporting core application functionalities with a 30% reduction in response time.
- Engineered key features for bidder management software, including exporting bidder data to Excel through custom API development, streamlining data processing by 40%.

PERSONAL PROJECTS

E- Transportation App

- Developed an Android mobile application from scratch, enabling users to find nearby vehicles for goods transportation, similar to platforms like Porter, leading to a 25% increase in user engagement.
- Created and managed 3 user roles (user, driver, admin), enabling drivers to receive transportation requests and users to place orders, resulting in a 30% increase in completed transactions.
- Integrated Razorpay for secure and seamless payment processing, handling over 100 successful transactions per month with a 99% payment success rate.
- **Technologies:** Flutter, Firebase, Razorpay

RTO Management System

- Designed and implemented a database schema for RTO management, managing exams, officers, employees, and vehicle licenses, supporting over 1000 records.
- Optimized various queries to handle large-scale data, improving data retrieval speed by 30% and ensuring system performance under high load.
- Streamlined RTO operations, enhancing the tracking and administration of licenses and employee activities, reducing processing time by 20%.
- **Technologies:** PL/SQL

EDUCATION

Dharmsinh Desai University, Nadiad, Gujarat

07/2019 – 05/ 2023

Bachelor of Engineering in Information Teachnology

CPI – 8.05
