SUMMARY

Results-driven Full Stack PHP expert with nearly **9 years of experience** crafting **high-performance software** for **finance, banking, insurance, e-commerce, etc.** Proficient in **PHP** (Core PHP, CodeIgniter, Laravel, CakePHP, Yii), modern **front-end frameworks** (Angular, Ionic), and full-stack development (**Node.js, JavaScript, HTML, CSS**), with strong expertise in **integrating global bank APIs**, streamlining **international payments**, and ensuring **strict compliance**. I've consistently delivered **scalable, user-centric solutions** that improve **system efficiency** and boost **user engagement**.

EXPERIENCE

GLOBAL EDGE SOFTWARE LTD

PHP/Angular Developer 📅 Mar 2021 – Feb 2024 📍 Terre Rouge, Mauritius

Led the development of modern solutions for a high-performance online banking application, with a focus on **enhancing user experience**, **strengthening security protocols**, and optimizing **transactional efficiency**.

- **Created features** like **e-transaction screening**, **e-KYC**, and **e-payments via APIs**, boosting **transaction efficiency and security by 40%** and reducing **manual oversight by 30%**.
- **Integrated forex provider APIs**, increasing **exchange rate accuracy** and **transaction efficiency by 20%**.

Technologies Used: PHP, MySQL, Angular, Ionic, HTML, JavaScript, CSS, APIs

SOCIAL BUY ONLINE RETAIL LTD

Senior Software Engineer 📅 Feb 2019 – Jun 2020 📍 Mumbai, India

Designed and developed an innovative payment service app with integrated **mutual fund investment**

- **Implemented QR scan**, **mobile number**, **account**, and **UPI Pay functionalities**, increasing **transaction convenience and efficiency by 30%**.
- **Developed expense tracking and mutual fund investment features**, improving **financial management efficiency by 20%**.

Technologies Used: PHP, CodeIgniter, MySQL, Firebase, HTML, JavaScript, CSS, APIs

INDICOSMIC CAPITAL

PHP/Angular Developer 📅 Mar 2018 – Feb 2019 📍 Mumbai, India

Designed and developed an innovative e-commerce insurance portal, enabling customers to easily browse, compare, and purchase insurance plans, while helping providers build stronger, long-lasting relationships with clients.

- **Transformed an offline insurance provider** into a seamless online platform, improving **user engagement by 30%**.
- **Integrated APIs from multiple insurers**, boosting sales by **40%**.

Technologies Used: PHP, Laravel, MySQL, Angular, HTML, JavaScript, CSS, APIs

JUSTDIAL LTD

Junior Software Engineer 📅 Dec 2014 – Feb 2018 📍 Mumbai, India

Designed and developed internal web applications to enhance staff productivity and streamline organizational processes.

- **Created applications** for business listing, reporting, task management, and more, reducing **manual reporting errors by 30%** and improving operational efficiency.

Technologies Used: PHP, CodeIgniter, Laravel, MySQL, HTML, JavaScript, CSS, APIs
