FULL STACK DEVELOPER

Front-end developer with 3 years of experience in designing, developing, and implementing scalable web applications. Proficient in **Python, Django, React.js**, and **REST APIs**. Proven leader with expertise in managing cross-functional teams and delivering projects on time. Skilled in enhancing application performance and user experience through modern frameworks and tools.

TECHNICAL SKILLS

Languages	: Python, JavaScript.
Frameworks	: Django, Flask, React.js, Redux, Bootstrap, Express, Next.js.
Databases	: MongoDB, MySQL, SQLite, PostgreSQL.
Libraries	: React Query, React-Hook-Form, React-Material-Table, Axios, Fetch, Zustand.
Tools	: Git, GitHub, Cypress, Postman, Intercom, i18n, Figma.
Skills	: HTML, CSS, internationalization (i18n).
Soft Skills	: Leadership, Communication.

EXPERIENCE

ReactJS Web Developer
Brainwonders

Jan 2025
Mumbai, Maharashtra, India

- Integrated **RESTful APIs** to enable seamless communication between front-end and back-end systems.
- Developed **theme-based reusable components** for consistent UI across the application.
- Integrated **Chart.js** for interactive data visualization in dashboards.
- Optimized rendering of large datasets in **charts** for better performance.
- Implemented **dynamic filtering & aggregation** options for real-time insights.

Associate Front-end Developer
Expound Technivo
Frontend :- **Vehicle Tracking System**

Feb 2024 – Sep 2024
Mumbai, Maharashtra, India

- Led the development of a **Vehicle Tracking System, managing a team of 15** and delivering the project on time.
- Integrated **RESTful APIs** and optimized application performance using **React Query**.
- Spearheaded the development of scalable server-side rendered applications using **React.js**, enhancing performance and user experience.
- Led code review sessions, promoting collaboration, knowledge sharing, and continuous improvement in coding practices across the team.

Frontend :- In house Project

- Spearheaded the development of scalable server-side rendered applications using **Next.js**, enhancing performance and user experience.

- Collaborated closely with designers to create visually appealing and responsive user interfaces using **HTML, CSS, Bootstrap Library**
- Integrated **AOS Library** for animation.
- Worked on code optimization and improve the code quality with functionality.
- Utilized profiling tools to analyze and optimize application performance, reducing memory usage and improving speed by 70%, ensuring smooth user experiences.

ReactJS Web Developer

Millicent Technology

March 2023 –Jan 2024
Mumbai, Maharashtra, India

Frontend :- **Real State Project**

- Developed and maintained interactive and scalable web applications using **React.js** and **Redux**.
- Integrated **RESTful APIs** to enable seamless communication between front-end and back-end systems.
- Utilized **React Router** and **React Query** to enhance application functionality and performance.
- Collaborated closely with designers to create visually appealing and responsive user interfaces using **HTML, CSS,** and **JavaScript (ES6+)**.
- Integrated **Material React Table** to present data in a visually appealing and interactive manner.
- Implemented internationalization (**i18n**) to support multiple languages and enhance the accessibility of the applicationfor a global user base.

Frontend :- **Educational Site**

- Developed and maintained interactive and scalable web applications using **Next.js** and **Zustand**.
- Integrated **RESTful APIs** to enable seamless communication between front-end and back-end systems.
- Collaborated closely with designers to create visually appealing and responsive user interfaces using **HTML, CSS, React Bootstrap**
- Integrated **MUI Library** to present data in a visually appealing and interactive manner.

Frontend :- **Stock Market Project**

- Developed a comprehensive stock market analysis application from the ground up using **TypeScript**, ensuring a tailoredsolution to meet project requirements.
- Designed and implemented key features such as **real-time data tracking, trend analysis,** and **visualization** using TypeScript,enhancing the application's functionality and user experience.
- Utilized TypeScript's static typing to minimize bugs and ensure high-quality, reliable code, resulting in reduced post-deployment issues.
- Successfully completed and delivered the project within the stipulated deadline, demonstrating strong project management and time management skills.

Full Stack Developer

Fafadia Tech
Frontend

June 2022 – March 2023
Mumbai, Maharashtra, India

- Designed and developed multiple dynamic and responsive websites using **HTML, CSS, React.js**.
- Created single page application with Loading multiple views using **route services** and adding more User experience to make it more dynamic by using **React.js framework**.
- Created and modified new and existing page applied new style on the page with the help of CSS and react.js.

- Worked on React.js **components, forms, key, events, router** and **redux** concept.
- Implemented cypress automated unit tests, improving overall application stability by identifying and fixing bugs during the development process.

Backend

- Developed robust and scalable backends using the **Django Model-View-Template (MVT)** framework.
- Utilized **Celery** as a task queue and **Redis** as a message broker for performing asynchronous tasks, enhancing the efficiency and responsiveness of the application.
- Implemented API endpoints (GET, POST, PUT, DELETE) using the Django REST framework to facilitate data retrieval and manipulation from RESTful APIs.
- Integrated PostgreSQL databases by establishing connections through the client method, ensuring seamless data management and persistence within Django applications.

Frontend :- News Portal

- Designed and developed multiple dynamic and responsive websites using **HTML, CSS, Next.js**.
- Created and modified new and existing page applied new style on the page with the help of **HTML, CSS** and **Bootstrap** .

Backend

- Developed robust and scalable backends using the Express
- Implemented API endpoints (GET, POST, PUT, DELETE) using the Django REST framework to facilitate data retrieval and
- Integrated PostgreSQL databases by establishing connections through the client method, ensuring seamless data management.

Web Development-Associate Intern
Entrepreneurship Network

Aug 2021 –Nov 2021
Mumbai, Maharashtra, India

- Consulted with engineering team members to determine system load and develop improvement plans.
- Collaborated closely with designers to create visually appealing and responsive user interfaces using **HTML** and **CSS**
