Objectives

Motivated front-end developer with experience in creating responsive and visually appealing websites. Proficient in HTML, CSS, JavaScript, and design tools such as Figma. Seeking to leverage my technical skills and passion for design to contribute to innovative projects and enhance user experiences Experience.

Experience

Knovos India Pvt. Ltd.

Junior UI Developer

June 2023 – Present | Gandhinagar, Gujarat, India

As a UI Developer specializing in Ext JS, Primary focus on the front-end development of user interfaces. Responsible for addressing UI-related issues, creating new UI screens using Figma, and ensuring the overall visual and functional quality of the product's interface. My role involves a significant amount of work with UI components, icons, and SVG graphics to enhance the user experience.

- Develop and maintain user interfaces using Ext JS framework.
- Ensure cross-browser compatibility and responsiveness of the UI.
- Identify and resolve UI-related issues, ensuring a seamless user experience.
- Troubleshoot and fix bugs related to UI components and layout.
- Create and update UI screens using Figma.
- Handle icon-related issues, ensuring icons are correctly displayed and functional.
- Work closely with backend developers, designers to ensure cohesive product development.

Knovos India Pvt. Ltd.

Software Developer Intern

January 2023 – May 2023 | Gandhinagar, Gujarat, India

During my internship, I gained hands-on experience in .NET technology and Ext JS, enhancing my skills in front-end and back-end development. I learned and applied the following technologies:

Ext JS, CSS & HTML, MS SQL, .NET Technology.

I successfully completed a project focused on developing a management system for corporate job and task management. This project involved:

- Designing and implementing a user-friendly interface using Ext JS, CSS, and HTML.
- Developing backend services with .NET technology to handle business logic and data processing.
- Integrating MS SQL for efficient data storage and retrieval.
- Ensuring the system effectively managed job assignments, task tracking, and reporting.
- This internship provided me with a comprehensive understanding of full-stack development and practical experience in building enterprise-level applications.

UpTech Mind

Web Developer Intern

May 2022 – July 2022 | Rajkot, Gujarat, India

- Motivated and detail-oriented individual with hands-on experience in web development through a three-month summer internship.
- Gained practical knowledge in HTML, CSS, and basic JavaScript. Demonstrated ability to perform daily tasks efficiently, contributing to the team's overall productivity.

Skills

HTML, CSS, JS, Ext JS, Bootstrap, GitHub, Figma, Azure DevOps
