JSS Academy of Technical Education

Master of Computer Applications

November 2021 - June 2023

Digvijay Nath PG College

Bachelor's of Computer Science

August 2018 - July 2021

WORK EXPERIENCE

Round The Clock Technologies (2023 - Now) React Developer

Actively Learn - MH (Ed-Tech Domain)

Developed product features using React, focusing heavily on ensuring compliance with **WCAG 2.2** guidelines and implementing **ARIA** for accessibility. Identified and resolved accessibility barriers, providing potential solutions in line with W3C standards.

Worked with assistive technologies such as **JAWS**, **NVDA**, and **VoiceOver** to test for compatibility and usability.

Pure Read (Data Visualization Domain)

Created a comprehensive dashboard for visualizing data using **HTML5**, **CSS**, and **Chart.js**, ensuring accessibility best practices were integrated into data display. Focused on inclusive design with accessibility as a core principle.

AI Performance Dashboard (Internal Project)

Developed a highly interactive dashboard UI for testing AI, using **HTML**, **CSS**, and **JavaScript**. The dashboard simulated real-world scenarios while ensuring the interface was accessible to users with disabilities.

Uneritx Technologies (2022 - 2023) Frontend Developer

ShivamCares (Non Profit Domain)

Developed a website using HTML, CSS, Bootstrap, and JavaScript to raise awareness about the education of disabled people.

Performed SEO to enhance the website's visibility and reach.

Web Automation (Internal Project)

Used Cloud Cannon to create customisable website templates that were easy to modify. Ensured templates were designed with accessibility in mind, facilitating inclusive web experiences for all users.

WebCom (Ecommerce Domain)

Created an e-commerce site using WordPress and performed customization of templates using code. Integrated essential plugins such as WooCommerce, MailChimp for WooCommerce, PayPal, WooCommerce Shipping & Tax, and Elementor/WPBakery Page Builder.

Performed SEO to enhance the website's visibility and search engine ranking.
