Dynamic Software Developer with 2 years of experience in crafting innovative web-based solutions that enhance user engagement and operational efficiency. Expertise in developing responsive user interfaces using HTML, CSS, and JavaScript, while leveraging frameworks like React and Redux for dynamic applications. Committed to delivering high-quality, maintainable code while continuously optimizing performance and user experience. Passionate about driving impactful projects that facilitate streamlined management processes.

Work Experience

Sanda Group Pvt Ltd. Software Developer/ Frontend Developer , Nov 2023 - Present

- Worked on a comprehensive web-based project named **SUMS (Student Management System)**, developing scalable and dynamic features for school management.
- Designed and maintained **responsive user** interfaces using **React.js, HTML, CSS, JavaScript, and Bootstrap**, ensuring an interactive and seamless user experience.
- Implemented key functionalities, including **student list management, class and division creation, fee handling, and homework assignment/review**.
- Developed and optimized modules for **student attendance tracking, bus fee management, and exam scheduling**, leveraging React's component-based architecture for efficiency.
- Built **report card generation features**, enabling individualized report card display for students with optimized performance.
- Collaborated with **back-end developers** to integrate **REST APIs**, ensuring seamless data retrieval and real-time updates.
- Enhanced **UI/UX** with **React state management**, improving load times, responsiveness, and cross-browser compatibility.

IrisDame Technologies India Pvt Ltd. Software Developer/ Frontend Developer , Jan 2022 - Jun 2023

- Worked on the web-based product **Cleverly Work**.
- Developed and maintained applications using standard development tools to ensure quality and performance.
- Utilized various JavaScript frameworks and libraries, including **React** and **Redux**, to build dynamic and interactive user interfaces.
- Continuously refactored and optimized the codebase to improve system efficiency, maintainability, and overall development quality.
- Collaborated closely with back-end developers to design, implement, and enhance features, leveraging experience with REST APIs for seamless integration.
- Integrated and customized third-party libraries such as **Ant Design, Tailwind, Ag-Grid, and Dragula** to enhance functionality and user experience.

Skills

- Proficient in **HTML**, **CSS**, and **JavaScript**, with a strong focus on building dynamic and **responsive** user interfaces.
- Extensive experience in developing front-end applications using modern JavaScript frameworks like **React.js** and backend environments such as **Node.js** and **Express.js**. Skilled in integrating and consuming RESTful APIs, ensuring
- seamless communication between client and server for web-based applications. Solid understanding of **Object-Oriented Programming**
- (OOP) concepts, leveraging them to design and implement scalable, maintainable, and efficient software solutions. Proven ability to build robust and **dynamic** web applications
- by combining front-end and back-end technologies, adhering to best practices and performance optimization techniques.

Educational Background

Bachelor Of Science (Computer Science)

D.B.J Sr college / Chiplun

Jun 2017 - Dec 2020

7.20 CGPA

H.S.C

D.B.J Jr college / Chiplun

Jun 2015 - May 2017

52.40%

LANGUAGE AND TECHNOLOGIES

Technical Skills

- HTML
- JavaScript (ES5 & ES6)
- Bootstrap
- CSS
- Tailwind
- Ant Design
- jQuery
- Node Js
- Express Js
- React Js
- Redux
- Mongo DB
- Rest APIs
- Figma
- NPM Webpack
- OOPS
- Git
- Axios
- Next js
