SUMMARY

Dedicated **Front-End Developer** with expertise in **React, CSS, HTML, and ECMAScript/TypeScript**. Proven proficiency in **React** and **Redux**, complemented by hands-on experience in **testing frameworks, Agile tools**, and version control. Skilled in creating efficient and reusable front-end systems using **React** and **Material UI**. Experienced in diagnosing and resolving bugs and performance bottlenecks for a native feel. Strong advocate for **best practices** and continual learning to stay abreast of industry trends.

SKILLS & INTERESTS

Skills: Node.js | JavaScript (ES6) | Typescript | React.js | Redux | Webpack | Tailwind | Material UI | Jest | HTML | CSS, Express Js | Mysql | Docker |

Tech & Platform: Git, Jira, Docker, CI/CD

WORK EXPERIENCE

Logix info security Pvt Ltd

Navi Mumbai

Software Engineer

Oct 2022 - Nov 2023

- Built efficient and reusable **front-end systems** using **JS** frameworks like **React** and **Material UI**.
- Diagnose and **fix bugs** and performance **bottlenecks** for performance that feels native.
- Delivered several **proofs of concept**, validating **new feature** ideas and driving innovation.
- **Enhanced user interactions and engagement** by creating polished user interface screens and integrating with robust RESTful APIs using React and NodeJs.
- Developed and **Implemented** a new feature on the firewall console, enabling the Input of **IPv4** and **IPv6** addresses along with a port number to analyze the network traffic flow using Network flow.
- Developed and Implemented an Open **VPN Integration module** enabling the creation of **client and server** configurations directly on the firewall. Facilitated seamless cross-platform comparability by allowing users to download the client configuration file from the firewall for Import on various operating systems such as Windows. Mac-OS, IOS, Android, and more.

General Technology Pvt Ltd

Navi Mumbai

Software Engineer

Mar 2024 - Present

- Implemented reusable React components with Material-UI, ensuring efficient development and adherence to design standards.
- Improved application performance by diagnosing and resolving bugs.
- Crafted polished user interface screens and seamlessly integrated them with robust REST-ful APIs using React and Node.js, enhancing user interactions and engagement.

PROJECT EXPERIENCE

E-commerce Platform
Mumbai

Navi-Mumbai
May 2023 - Nov 2023

- Developed responsive user interfaces for an e-commerce application using React.js, ensuring a seamless and engaging user experience.
- Implemented state management with Redux, optimizing data flow and enhancing application performance.
- Styled components with Tailwind CSS, contributing to a modern and consistent UI design.
- Conducted unit testing using Jest, ensuring the reliability and stability of front-end features.
- Gained valuable experience in front-end and best practices.
