SUMMARY

Aspiring Data Science with expertise in data visualization, data cleaning and preprocessing, statistical analysis, and predictive modeling. Proficient in SQL, Python, Power BI, and Machine Learning with hands-on experience in ETL, automation and dashboarding. Strong problem-solving skills, eager to apply analytical expertise in a data-driven environment

EDUCATION

Msc, Data Science

Mumbai University, Mumbai,
July 2023 – June 2025

Bsc, Computer Science

Mumbai University, Mumbai,
July 2020– June 2023

SKILLS

Data Analysis & Visualization: Power BI, Matplotlib, Seaborn, Exploratory Data analysis.

Programming & Scripting: Python (Pandas, NumPy, Scikit-learn), SQL.

Machine Learning: Supervised & Unsupervised Learning & Regression, Classification.

Database Management: MySQL.

Automation & ETL: Power Query, Python Automation.

Statistical Analysis: Hypothesis Testing, A/B Testing, Data Cleaning .and preprocessing.

Soft Skills: Problem-Solving, Critical Thinking, Communication Attention to Detail, Writing.

PROJECTS

1. Sales Performance Dashboard (Power BI & SQL)

- Developed **Power BI dashboard** analyzing sales trends and customer behavior.
- Utilized **SQL queries** to extract, clean, and manipulate large datasets from a retail database.

2. Travel and Tourism Recommendation System (Python & Machine Learning)

- Built a predictive model using **Random Forest regression** to identify behaviour and preferences of other similar users.
- Performed **data preprocessing, feature engineering, and model evaluation**.
- Achieved **80% accuracy** in predicting destination.

3. Data Cleaning & Transformation (Excel & SQL)

- Cleaned, structured, and transformed raw datasets using **Excel formulas, Power Query, and SQL functions**.
- Ensured data accuracy and consistency, reducing errors by **95%**.

4. Student Performance Analysis (Python & Machine Learning)

- This project understands how the student's performance (test scores) is affected by other variables such as Gender, Ethnicity, Parental level of education, Lunch and Test preparation course..
 - Performed **Data Cleaning and Preprocessing, Exploratory Data Analysis (EDA) and Model Trainings** to get best model.
-
