- Strong background in UX/UI design with 6 years of focused practice. Expertise in responsive and mobile-first design.
- REST API integration for handling dynamic requests and DOM Manipulation.
- experience with front-end build tools and package manager (NPM).
- Comprehensive understanding of cross-browser compatibility and performance optimization.
- Familiarity with version control systems like Git and SVN.

WORK EXPERIENCE

Utthunga Technologies

Senior Software Engineer • Feb 2021 - Jun 2024

- Lead the UI development for multiple high-profile projects, ensuring timely delivery and high quality.
- Implement responsive design techniques to ensure optimal user experiences across various devices and screen sizes.
- Responsive Design issues fixing for all modules in every browsers.
- Drive the adoption of best practices in front-end development, including accessibility and performance optimization.

SILVER TOUCH Technologies

UI Designer • Feb 2019 - Dec 2020

- Lead the design and development of user interfaces and user experiences for web and mobile applications, resulting in improved user satisfaction and engagement.
- Create wireframes, mockups, and interactive prototypes to visualize design concepts. Using tools like Photoshop and Figma .
- Worked on UI development, Using CSS3, SCSS, Html5, Bootstrap, jQuery and JavaScript etc.
- Front end design and development using CSS and HTML5 (Responsive).

TECHCAFFEE

UI Developer • Jan 2017-Dec 2018

- Created and maintained design systems and style guides to ensure consistency across multiple platforms and products, reducing design debt and streamlining development processes.
- Developed wireframes, prototypes, and high-fidelity mockups using tools such as Figma, Adobe XD, and Sketch, facilitating effective communication of design concepts to stakeholders.

TECHUGO

UI Developer • Jun 2015-Jan 2017

- Worked with designers and backend developers to translate UI/UX designs into interactive interfaces.
- Ensured cross-browser compatibility and optimized web applications for maximum speed and scalability.

NETWEBSYS

Web Designer • April 2014-May 2015

- website designing in photoshop tool.
- Worked on UI development, Using CSS3, Html5, foundation CSS and jQuery etc.

EDUCATION

BSC(physics)

Berhampur university • 2004-2007

NIIT

GNIIT • 2008-2011

STRENGTH

I am a punctual and hardworking person and Fast learner. I am honest, trustworthy and have various techniques and experiences through studies and work. I like challenges.

HOBBIES

- Dancing
- Yoga
- Listening Music

PROJECT SUMMARY

Voter Portal

Description:

- Voter ID card is an identity document issued by the Election Commission of India to adult domiciles of India who have reached the age of 18.
- Voter portal Facility: Enroll To Vote, Check My Enrollment, Update My Details, Find My Polling Station and Know My BLO etc.

Roles & Responsibilities:

- Worked on UI development, Using CSS3, Html5, Bootstrap4, jQuery and JavaScript etc.
- Browser compatibility in all Browsers

One Wireless(Honeywell)

Description:

- One wireless is an application, where all the wireless devices are connected to wireless device manager. Access point, ISA 100 devices and Wireless HART devices.

Roles & Responsibilities:

- Worked on UI development, Using SCSS, Html4 and Bootstrap5 etc.
- Optimize components for maximum performance across various devices and browsers.
- Responsive Design issues and bug fixing for all modules in every browsers .

Device Configuration Manager(NOJA)

Description:

- Device Configuration Manager is a software package that runs on a PC, Android and IOS, used to configure and interrogate the RC-10 and RC-20-4G cubicle.
- It can be used in Offline mode and Online mode. Offline mode means that Device Configuration Manager is not connected to the switchgear device.

Roles & Responsibilities:

- Created interactive prototypes and conducted usability testing sessions to gather feedback and refine design solutions.
- Write clean, maintainable, and efficient code following best practices and coding standards.
- Worked on UI development, Using CSS3, Html5 and Bootstrap5 etc.

Config Tool (Graco)

Description:

Config Tool is an application where all the hardware devices are connected with smart module. There are 4 types of smart modules.

- IO module,
- Communication module
- Serial module
- Wireless module

Roles & Responsibilities:

- Worked on UI development, Using SCSS, Html5, Bootstrap5, jQuery and JavaScript etc.
- Collaborated with development teams to ensure accurate implementation of design specifications and resolve design-related issues.
- Developed user personas, journey maps, and user flows to guide design decisions and align with user needs and business objectives.
