EDUCATION

Bachelor of Engineering in Computer Engineering

Arunai Engineering College(Anna University)

Jun 2012 - Oct 2016

GPA: 7.9/10.0

EXPERIENCE

Software Engineer

Setlmint Technology Private Limited

Oct 2022 - present

Mumbai, India

- Developed a secure and automated payment processing system using ReactJS and Ruby on Rails, integrating with ICICI, HDFC, KOTAK, and SBI APIs, reducing manual intervention by 70% and improving transaction efficiency.
- Managed end-to-end mobile app deployment for a FinTech project, migrating the development environment to Cloud Xcode for seamless iOS and Android builds.
- Developed a dynamic approval system allowing multi-department parallel approvals, reducing approval time by 40% and improving workflow efficiency.
- Integrated SAP ERP with multiple banks (HDFC, ICICI, SBI), enabling 2,000+ secure transactions per month using token authentication, SSL certificates, and IP whitelisting.
- Deployed a scalable high-traffic application on AWS, handling over 7,000 daily users; optimized resource allocation and enhanced performance metrics by 30%, maintaining high availability and reliability.

Assistant Manager

R.K Laxmi Enterprises

May 2019 - Jun 2022

Mumbai, India

- Orchestrated project execution, ensuring timely delivery and operational efficiency.
- Facilitated cross-functional communication between on-site teams and stakeholders, ensuring seamless coordination and deadline adherence.

Software Development Engineer

R.K Laxmi Enterprises

JUN 2017 - Apr 2019

Mumbai, India

- Developed the application's frontend using React, enhancing the user interface and improving organizational interactions.
- Developed a predictive analytics tool using Node.js and MongoDB to analyze soil removal patterns, optimizing route planning and improving fuel efficiency by 25%, leading to a significant reduction in operational costs.

PROJECTS

Food App Admin Web Dashboard

Dec 2024 - Mar 2025

- Developed a restaurant admin dashboard using ReactJS, Redux, and Hooks, enabling real-time management of menu items, orders, and table reservations, improving operational efficiency by 40%.
- Implemented a state management system with Redux Toolkit, reducing API calls by 35% and optimizing data retrieval for a seamless user experience.

E-commerce website with Django and python

Jul 2022 - Jan 2023

- Engineered a full-stack e-commerce platform using Django and Python, integrating product listings, a shopping cart, and secure order processing, enhancing user experience.
- Implemented Stripe and PayPal payment gateways, ensuring seamless and secure transactions with a 99.9% success rate.

SKILLS

Programming Languages C, C++, Java, TypeScript, JavaScript, Python

Web Technologies HTML5, Cascading Style Sheets(CSS3), Angular, React, Node.js, Express.js, Spring Boot, Hibernate, Git, GitLab, Visual Studio Code, IntelliJ, AWS

Databases PostgreSQL, MongoDB, MySQL

Cloud Technologies AWS Lambda, AWS S3, Firebase
