Objective

- Dedicated and results-oriented Software Engineer with more than 4 year of experience in Frontend Angular Development. I excel in creating robust and user-friendly applications while ensuring the highest levels of efficiency and performance.

My objective is to have a growth oriented and challenging career, where I can contribute my knowledge and skills to the Organization and enhance experience through continuous learning and teamwork.

Skills

- Experience in developing Applications & User Interfaces for Mobile/Tablet/Desktop using **ANGULAR ,HTML, CSS, Typescript, JavaScript, JQuery, Bootstrap, Angular Material**.
- Experience in applying the latest software development approaches including **MVC**, event driven applications using **AJAX, Object Oriented Programming, JSON and XML**.
- Worked on **REST/Web API** to create the services and tested on postman and used in Angular's **HTTP service** calls and bind the data according to response.
- Used **Angular** as framework to create **Single Page Application** which can bind data to specific views and synchronize data with server using Angular material and Bootstrap.
- Experience in **CSS pixel-level layout**, Consistency with browsers, Version and Platform Independence.
- **Debugging code deeply** and fix critical bugs using web developers tools on Chorme and Visual Studio.
- Experience in working with **RESTFUL Web Services** and implementing **RESTFUL API's**.
- Good Understanding of **Document Object Model (DOM)** and DOM Functions.
- Worked with management in analyzing business requirements, participated in technical design,development and testing of various modules assigned.
- Worked and developed multiple modules as per clients requirement with minimum bugs.
- Experience in **GitHub, Bitbucket and Starteam** for source code and version control management.
- Experience in using **Firebase and OAuth** for **Multi Factor Authentication(MFA)** and also used it for storage of images and videos.
- Beginner level knowledge in **Java** and developing RESTFUL API's in Spring Boot using **Spring Tool Suit (STS)**.
- Experience in Database Technologies like MySQL, Microsoft SQL Server Management, Microsoft Profiler.
- Given demo of projects and progress reports of projects to client.
- Experience in deploying projects on **AWS**.
- Result oriented, Creative problem solver, Passionate, Proactive Team Player.
- Experience in working on **JIRA** and **Sprints**

Software Skills Set

- **Web Technologies** : Typescript, Javascript, HTML5, CSS3, jQuery, Bootstrap, Angular Material, AJAX, JSON, XML, REST API'S

Programming Language : Java

Framework : Angular 6 to Angular 16, Spring Boot

Database : Microsoft SQL Server Management, MySQL

Version Control : Star Team, Bitbucket, GitBash, Github

IDE's and Tools : Visual Studio Code, Spring Tool suite(STS), Eclipse, Postman, Hasura

Experience

- LearningMate (Payroll - Boolean Tabs pvt ltd)** November 2024 - Present
Senior Software Engineer
Developed high-quality assessments with more than **20** different types of assessments including **audio, video** and **timer** based questions, and **scenario-based evaluations**.
Ensured assessments align with curriculum standards, industry requirements, and learning objectives.
This product is developed for **Pearson Education Company** who is leading focused on educational **publishing** and **services**, with Pearson Education as its main subsidiary in **US** and **Europe**.
- Intellect Design Arena (Payroll - Krishpar Technologies)** March 2024 - October 2024
Angular Developer
 - Contextual Banking Experience (CBX)** is a white-label digital transaction banking platform to manage firms' cash and trade, that leverages Machine Learning and predictive analytics, delivered through APIs and an omnichannel UX. In this I have successfully implemented **"Send Money"** and **"Request Money"** payment trails for clients named **"Canadian Western Bank"** and **"Canadian Imperial Bank of Commerce"**.
- 63 Moons Technologies Limited** April 2022 - March 2024
Software Engineer
 - Data Collector** is an application developed using **Angular** for banking regulator clients (e.g. **NABARD, CBB**). This is a web application where different users with different roles collect data. Regulator creates RETURNS, FORMS and publishes them to the banks to collect that data. Banks then completes the returns, forms and submits it back to regulator.
 - Dynamic Data Upload Utility** is a web application developed using **Angular** simply to transfer large amount of **HFC (Housing Finance Corporations)** data to **NHB (National Housing Bank)**. Data can be in any format like in database, excel, csv in HFC data house. Data is visible to different users based on their roles to read, modify. The major part is the data validation; there are many business validations that need to be processed before transferring the data from HFC to NHB.
- Kannecting Global Consultancy Services** July 2021 - April 2022
Software Engineer
 - Worked on **OTT platform** named **Filmy Takies** using **Angular** as frontend technology where users can view variety of contents through subscription. In this admin could add content through admin panel and can also manage users.
 - Worked on **E-commerce** project **Gorgeous Inners** using **Angular** as frontend technology where users can buy products of different size and color, add products to wishlist and cart. Also admin could add new product through admin panel and also view sales records and manage users.
 - Worked on **Social Media Platform** using **Angular** named **Future Kannect** where users can connect with each other, users can also create their own pages, brands can create their brand or business page, also celebrities can also create their page to engage with their fans. Also in this admin can view and manage all the activities through admin panel.
- HUDL** July 2017 - November 2019
Sports Analyst

Overall to analyze the Performance of teams and athletes (for any sporting discipline) during training session or match and give evidence based feedbacks for learning and improvement and as per the guidelines laid down by the organization.

Education

- Full Stack Java Development** 2020
Aptech Education
- Bachelor of Science in Information** 2017
Viva College Technology

Other Details

- Interest**
Cricket, Internet surfing, social and cultural activities
- Date of Birth**
11-11-1995
