SUMMARY

Front-End Engineer with over 1+ years of experience and a total of **3+ years** in IT, possessing strong fundamentals in front-end technologies. Passionate about building scalable web infrastructure, optimizing website performance, compilers, and developer tooling.

SKILLS SUMMARY

- **Programming Languages:** JavaScript, Python
- **Technologies:** ReactJS, Redux, Tailwind CSS, Chakra UI, Vite, NodeJS, ExpressJS
- **Databases:** MySQL, MongoDB, Supabase, Google Firebase

WORK EXPERIENCE

ACCENTURE (Contract), Mumbai | Web Developer | May 2024 - Present

- Designing and developing modular email blocks using **React.js**, enabling a scalable and reusable template architecture.
- Building an email builder that allows users to create emails, forms, and pop-ups dynamically using drag-and-drop functionality.
- Writing clean, efficient **Javascript** code to optimize rendering performance and ensure smooth user interactions.
- Collaborating with cross-functional teams to integrate email modules seamlessly into the broader application ecosystem.

WIPRO, Mumbai | Trainee Developer | November 2021 - May 2024

- Developed and optimized user interface components using React.js, delivering seamless and intuitive user experiences.
- Resolved frontend issues with strong problem-solving skills, ensuring high-quality deliverables.
- Continuously enhanced expertise in frontend technologies through self-paced learning and workshops.
- Collaborated with cross-functional teams to align UI solutions with project goals.

EDUCATION

Bachelor of Science in Information & Technology

Nagindas Khandwala College, Mumbai, Maharashtra

June 2018 - April 2021

CGPA - 6.82 / 10

Higher Secondary School

Bombay Suburban Grain Dealers Junior College, Mumbai, Maharashtra

May 2016 - April 2018

Percentage - 50.46%

PROJECTS

NetflixGPT

February 2025

- Built a Netflix-like streaming platform with **React.js**, and **Tailwind CSS**, featuring an intuitive UI.
- Integrated GPT-based AI for personalized movie recommendations and implemented authentication with Firebase/Auth0.
- Fetched and displayed movie data using the **TMDb API** and deployed the app on Vercel for optimal performance.

Skills: React.js, Vite, Tailwind CSS, Firebase Auth
