

G HEBSI RANI

ASSOCIATE SOFTWARE ENGINEER

9381680135 Bengaluru hebsiranigonegandla@gmail.com

ABOUT ME

I am a passionate Associate Software Engineer with 6 months of professional experience, specialising in frontend development and web page implementation. During this time, I have honed my skills in creating dynamic, responsive user interfaces, and have worked extensively with web technologies to deliver seamless and intuitive experiences. Additionally, I have a solid understanding of embedded systems, which allows me to bridge the gap between hardware and software development. I am eager to continue growing my skill set and am actively seeking opportunities that challenge me to push my limits and work on cutting-edge technologies. My goal is to contribute to impactful projects while continuously advancing my technical abilities.

EDUCATION

2019 - 2023

JNTUA - Anantapur

Bachelor of Technology

Electronics and Communication Engineer with a strong foundation in embedded systems, and communication technologies. Skilled in programming languages (C, C++), PCB design. Passionate about developing innovative solutions and optimising electronic systems for real-world applications. Eager to contribute technical expertise to challenging engineering projects.

2023 - 2024

Vector India Institute
Hyderabad

Embedded Systems & Frontend Development

Specialised training in Embedded Systems (C, C++, Linux, ARM, TCP/IP) and Front-End development (HTML, CSS, Bootstrap, React, JavaScript). Experienced in designing embedded solutions and developing user-friendly web interfaces.

SKILLS

- HTML
- CSS
- Javascript
- Bootstrap
- ARM
- React
- C
- C++
- Linux
- Embedded Systems

EXPERIENCE

2024 August - NOW

Suvizon Infotech Pvt Ltd

Associate Software Engineer

Worked on web page implementations for major e-commerce and service platforms such as Flipkart, Zomato, and Climentos, leveraging modern frontend technologies. Focused on creating responsive, user-friendly interfaces with an emphasis on performance and design consistency.

Key Technologies & Tools: HTML, CSS, JavaScript, React, Bootstrap

Key Contributions: Developed and optimised front-end functionality and layouts to enhance user experience. Implemented responsive designs ensuring compatibility across multiple devices and screen sizes. Integrated dynamic features using React to improve page interactivity and speed. Collaborated with backend developers to ensure seamless integration of frontend components. Applied Bootstrap to streamline UI design and maintain consistent branding across pages.
