PROFESSIONAL SUMMARY

Results-driven Senior Software Engineer with 3.5+ years of experience in front-end development, specializing in React.js, Redux, and modern JavaScript frameworks. Proven track record of delivering scalable, high-performance web applications for clients like **Microsoft**. Adept at Agile methodologies, test-driven development (TDD), and cross-functional collaboration. Passionate about UI/UX optimization, automation testing, and secure coding practices.

TECHNICAL SKILLS

Web Technologies:	HTML5, CSS3, JavaScript, GraphQL, Python, JWT, BcryptJS, JSON, RESTful APIs
Frameworks & Libraries:	React.js, Next.js, Node.js, Express.js, Redux, Axios, Mongoose
UI & Styling:	Sass, Reimagine UI, Material UI (MUI), Bootstrap
Testing & Automation:	Playwright, React Testing Library (RTL), Jest, End-to-End (E2E) Testing
Databases & CMS:	MongoDB, Strapi
Tools & Platforms:	Azure DevOps, Git, GitHub, Jira, NPM, Webpack, Babel, VS Code, Postman, Linux
Languages:	English, Hindi, Marathi, Gujarati
Soft Skills:	Problem-solving, Team Leadership, Agile Scrum, Time Management

WORK EXPERIENCE

LTIMindtree Ltd, Pune, Maharashtra

July 2024– Present

Client: Microsoft corporation

Project: AI Content Composer, **Role:** Senior Software Engineer

- Led end-to-end development of AI-driven content tools using React.js and Redux, taking ownership of complex tasks to deliver scalable solutions under tight deadlines—improving system performance by 30% with minimal project disruption.
- Streamlined project setup by creating reusable base configurations for page structures, cutting onboarding time for new developers by 50%.
- Achieved 85% test coverage by implementing Playwright and RTL, reducing post-deployment bugs by 40%.
- Optimized CI/CD pipelines in Azure DevOps, streamlining deployments and improving team productivity.
- Managed work items using Azure DevOps ADO Board, ensuring tasks were triaged and tagged as AICC candidates for smooth project tracking.

DataQuent Pvt Ltd, Thane, Maharashtra

Aug 2021– July 2024

Project: nuQare Emr, **Role:** Front-End Developer

- Developed and maintained EMR (Electronic Medical Record) software using React.js, ensuring HIPAA compliance and adherence to healthcare industry standards and regulations.
- Implemented data encryption, authentication, and role-based access control (RBAC) to secure patient health information (PHI).
- Designed high-performance front-end architectures, improving data retrieval speeds by 40% and reducing UI load times by 30% for large-scale deployments.
- Collaborated with product managers, UX/UI designers, and stakeholders to translate requirements into intuitive interfaces—boosting user engagement by 20% through innovative technical solutions.

Zenrays Technologies Pvt Ltd, Bangalore, Karnataka

May 2021 – Jul 2021

Project: Job Portal App, **Role:** React Developer Intern

- Designed and implemented responsive user interfaces using React.js, ensuring an intuitive experience across devices.
- Managed application state with Redux and Context API to ensure data consistency and optimized app performance.
- Integrated front-end components with backend services, handling data fetching, synchronization, and seamless client-server communication.

PROJECTS

Basic Banking System (Skills: React.js, Node.js, Express.js, MongoDB, API) - [GitHub](#)

- Developed a Basic Banking System Implemented features such as user management, transaction tracking, and responsive UI design.

ACHIEVEMENTS

Recognized as a critical team resource for consistently delivering high-impact features and resolving complex issues.

Awarded "Best Employee of the Month" three times, recognizing outstanding performance, teamwork, and productivity.

EDUCATION

JSPM Imperial College of Engineering and Research, Pune, Maharashtra

AUG 2017 – JUN 2020

Degree: Bachelor in Mechanical Engineering

7.5 CGPA
