SUMMARY

Frontend Developer with **2.5 YOE** in building performant **React** apps with real-world scale (80K+ users). Specialized in UI optimization, accessibility, and modular component design. Proven ability to ship features fast in agile teams and improve user retention via UX insights.

EXPERIENCE

Software Engineer (Consultant)

Zeus Learning, Mumbai | Nov 2022 – Present

- Built and maintained a large-scale **LMS platform** used by **80K+ students** worldwide, using **React** and **Redux**.
- Optimized page load speeds by 35% through **lazy loading**, **code splitting**, and **Webpack** optimizations.
- Integrated **REST APIs** for real-time features like progress tracking and assessments.
- Worked closely with designers to turn Figma mocks into reusable components—cut duplicate code by 30%.
- Added **WCAG-compliant** components to improve accessibility scores by 20% (Lighthouse).
- Created **multimedia-rich** modules (videos, images, animations), which boosted learner engagement—95% gave positive feedback in a client survey.
- Delivered over **30+ new features**, including dashboards, interactive quizzes, and multimedia modules, on schedule in an **Agile environment**.
- Wrote **unit and integration tests** using **Jest** and **React Testing Library**, improving test coverage and reducing regressions in critical LMS features.
- Automated **E2E testing** with **Playwright** to ensure core flows worked across browsers.
- Set up **GitHub Actions for CI/CD**—automated tests, linting, and deployments to cut release effort.
